

## Leger Ready To Play

Tonight's Tilt  
Last One Here

By BILL WALKER  
Times Sport Editor

The message on the typewriter in the sports department read:

"Doc Wride foned . . . Roger okay and rarin' to go . . ."

It was in answer to a late call today to Doctor R. J. Wride, club physician of the Cougars, concerning the physical status of coach Roger Leger.

Ill Tuesday night following a reaction from penicillin treatment for the deep forehead gash, he suffered in Monday's P.C.H.L. playoff game with Saskatoon Quakers. Leger, it had been feared, might not play tonight.

However, Wride's announcement following examination of "Big Rog" means that the glamour boy of the cinderella kids who belted New Westminster Royals in the league semifinal, will be back in all his glory.

And a good thing it is as the Quakers and Cougars square off in the third game of their best-of-seven series for the P.C.H.L. championship and the final game of the season in Victoria.

**NEED 'BIG ROG'**  
The Cougars need Leger like apple pie needs cheese, as following tonight's game the series moves to Saskatoon for its conclusion—four games, if necessary.

The series is closer than paint on the wall at the moment—the Cougars winning the opener Saturday, 4-3, in a Horatio Alger finish, and the Quakers weathering a terrific second-period assault by the Cougars to grab the equalizer Monday, 3-1.

There will be only one line-up change according to present information.

### McINTYRE STARTS

Jack McIntyre of the Cougars steps into the series for the first time in role of a forward and replaces rookie defenseman Leon Bouchard, benched because of a recurrent knee injury.

Quakers will go with their winning combination of Monday, Howie Milford sitting it out with a shoulder separation while Bill Heindl takes his place on defense.

Both teams leave by train for Saskatoon Thursday night, arriving at the Hub City Saturday morning where the fourth game takes place that night. Fifth game is scheduled Monday.

For the benefit of visitors in town who might plan to take in the game—don't.

It's been sold out, the counter being cleared of ducats in less than two hours Tuesday.

Game time (a broadcast will be carried by radio station CJVI) is 8:30.

## Harriman Joins U.S. Presidential Scramble

NEWARK, N.J., April 16 (AP)—The refusal of Governor Adlai Stevenson of Illinois to bid for the Democratic presidential nomination apparently promoted W. Averell Harriman toward a higher spot today in the scramble for the prize.

Harriman, mutual security administrator, will be guest Thursday night at a banquet in New York aimed at making him that state's favorite. New York has 84 votes at the Democratic national convention.

Previously Harriman had been represented as one of those urging Stevenson to become candidate of the so-called "Liberal" wing of the party, which supports President Truman's civil rights program and most of his "fair-deal" proposals.

Stevenson was urged by Truman to seek the nomination but the Illinois governor said at Springfield today that "I could not accept."

This plunged the race, already mixed up by Truman's announcement that he would not run again, into further confusion.

The Stevenson announcement removed for Senator Estes Kefauver of Tennessee one of the big obstacles in his fight for the nomination at the Chicago convention.

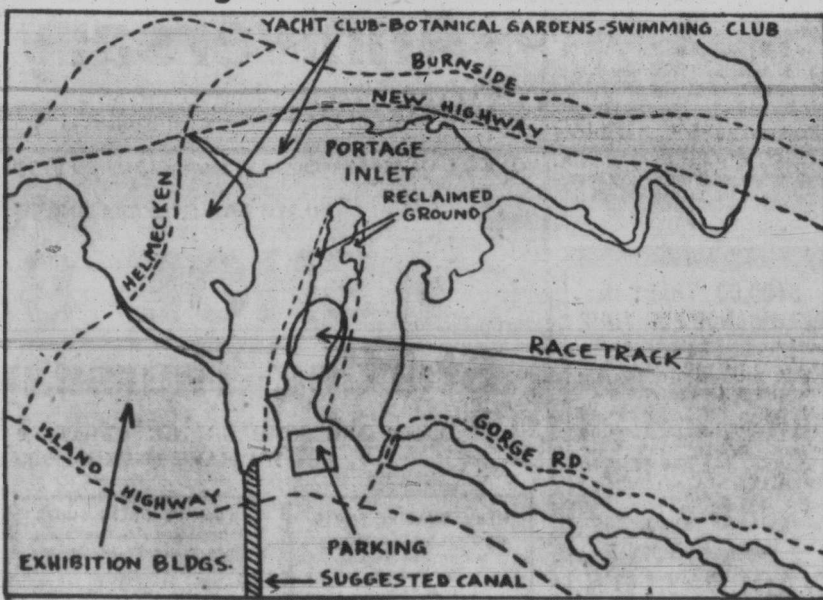

Kefauver, only man on the Democratic ballot in Tuesday's New Jersey presidential primary, appeared to have polled about 160,000 votes. He far outdistanced a field of write-in ballots.

But Kefauver had no assurance that his victory would bring to his standard any of the 32-vote delegation New Jersey will send to the Chicago convention. In fact, Archibald Alexander, the party's senatorial nominee and head of its large delegation, openly had espoused the cause of Stevenson.

Alexander could not be reached for a statement after Stevenson's withdrawal, but other Democrats said the New Jersey group might consider going along with New York in support of Harriman.

In the Republican primary, General Eisenhower's smashing victory appeared to have convinced some of his backers that he won't have to campaign vigorously for the Republican presidential nomination. New Jersey Republicans gave him a vote margin approaching 150,000 over Senator Robert Taft of Ohio.

## Huge Recreational Scheme

One of the suggested sites for new \$9,000,000 sport centre. (Times map.)

## Rampaging Rivers Drive 100,000 from U.S. Homes

### DEAD MAN'S MONEY DEFENDS HIS KILLER

SAN FRANCISCO, April 16 (AP)—A convicted murderer's defense will be financed by the estate of his victim.

The ironic postscript to the death of Allen Friedman was revealed when an inventory of his \$77,644 estate was filed Tuesday.

Friedman's widow, Blanche, formally assigned \$8,000 of her inheritance to pay for the defense of Elbert Raymond Beale, convicted March 21.

The widow testified that Beale had been her lover.

### Harrison Asks Ottawa to Aid Troops' Hostel

Mayor Claude Harrison wrote Defense Minister Claxton Tuesday with regard to an earlier request for federal aid on a United Services Centre in Victoria.

The mayor said the minister had been away and he drew his attention again to the request that the government put up a sufficient sum to purchase "a certain site."

There are three possible sites, all buildings which would have to be adapted in varying degrees.

It has been reported the navy does not consider Robert House suitable. The mayor said that if the services feel Robert House is inadequate their decision would be all right with him.

In the meantime Commodore Kenneth Adams, commanding officer at H.M.C.S. Naden, said navy personnel in this area want and would support a centre.

### Devastation Spread Over 8 States; Truman Due to Fly Over District

OMAHA, Neb., April 16 (CP)—More than 100,000 persons were homeless today as three rampaging rivers continued to spread a wave of destruction across eight states.

President Truman planned to fly over the Omaha-Council Bluffs area, next target of the flooding Missouri River, and to confer today with the governors of seven of the states hit or threatened by the Missouri, Mississippi and Red River of the North.

While the three rivers continued to wreak their toll of misery, more trouble was feared as the Milk River in Montana was set loose once more by a break in the Frenchman Creek dam.

The estimate of homeless was made by the Red Cross which reported that 26,620 families had been forced to leave their homes in the paths of relentless spring floods, which now cover more than 1,000,000 acres.

Eighty-seven cities, towns and villages—in Iowa, Nebraska, Kansas, Missouri, Minnesota, Wisconsin and the Dakotas have been affected, and some virtually abandoned to the waters. Illinois communities were threatened as the Mississippi flood rolled southward.

The major fight shaping up today was for the twin cities of Omaha and Council Bluffs, on either side of the Missouri, where 14,000 soldiers and civilians worked to build up dikes to meet a crest of 31.5 feet—almost five feet over the peak they were originally made for.

### Missouri Will Hit Thursday

The muddy Missouri is due to hit the area Thursday and there was some hope in the words of Lt. Gen. Lewis Pick, chief of the army engineers, who said there is a good chance the river can be held back.

Some 34,000 persons have been moved out of sections of Council Bluffs (population 45,000) which will be flooded if the fight against the Missouri fails. Another 5,000 have been evacuated from Omaha homes.

Gen. Pick, who was formerly engineer for the Missouri Basin, said he not only thinks the river can be contained in the Omaha-Council Bluffs area, but he believes it can be prevented from overrunning homes further south in Iowa, Nebraska, Missouri and Kansas.

The Missouri thus far has affected 33 larger communities. The Mississippi has struck communities in Minnesota, Wisconsin and Iowa. St. Paul has been hit by its worst flood in history and one-third of Winona, Minn., will be covered with water if the dikes can't be held there.

Governor C. Elmer Anderson, of Minnesota, has called the Mississippi rampage a "major disaster."

The Red River of the north has driven 2,500 persons from their homes.

A meeting of the College of Physicians and Surgeons found Dr. Hett guilty of "indefinite and disgraceful conduct in a professional sense." It was the second time in 15 years that his name was stricken from the college rolls.

The college said that Dr. Hett "for many years has professed to have serum which will cure cancer, arthritis, diabetes and peptic ulcers but he has refused consistently to divulge the formula to any recognized medical research centre."

Said the doctor today: "I've been tried before and I'm still practicing. I have no intention of quitting practice. I have countless patients who will back me in my stand."

The doctor's name was first erased from the list of practicing Ontario physicians in April, 1937, for refusal to reveal the nature of his serum. He was reinstated a year later by a special commission set up by the Ontario Legislature.

Murray Wener, four months, suffocated in his crib in a Vancouver foster home.

West Vancouver municipal officials ordered a police commission probe into adequacy of the community's life-saving equipment.

## Two City Racetracks In Planning Stage

### COMMUNITY CHEST CHIEFS OPTIMISTIC

Believe \$40,000 Needed in Sight

Community Chest officials expressed optimism today that an objective of \$70,000 would be met by the time complete returns are in later this week.

Latest total in the one-day drive Tuesday is slightly over the \$30,000 mark with more districts to be heard from and canvasses of several areas still to be made the rest of this week.

The fate of 16-member services of the Chest will hang in the balance until a final figure is arrived at—if the objective is not met, curtailment of these services is a foreseeable possibility.

Canvassers are out again today on a "mop-up" campaign to call on householders who were not home during the major canvass Tuesday.

### AUDIT TONIGHT

Community Chest secretary H. B. Binny said today at Spencerhouse that an audit of all money collected so far will be made at a downtown bank tonight. More definite figures will follow this audit, he said.

Without the fanfare and hoopla of previous campaigns, Tuesday's Community Emergency drive ended last night with a preliminary tally being made at Chest headquarters at Spencerhouse.

While returns were slow in coming in at first, workers at midnight had handled about \$30,000 in donations from 45 districts.

The main part of the business area was unreported as were some special categories from which heavy donations were expected.

Victorians gave generously in varying amounts—all the way from 13 cents donated by two children (their father gave \$25) to a \$500 donation from another resident.

### Eastend, Saskatchewan, At Mercy of Flood Fury

SHANAVON, Sask., April 16 (CP)—About 100 persons in Eastend, Sask., today braced themselves for an expected flood crest in the Frenchman River.

The other 750 residents could only wonder what would happen. The river was expected to surge through the streets in more than two-thirds of the town. Eastend is 28 miles west of here in the southwest corner of the province, 200 miles from Regina.

About 350 or 400 evacuees spent the night here. The rest moved to summer farm homes around Eastend.

### FEW REMAIN

Remaining in the town were business men, civic volunteers, a telephone operator for the single open line, two nurses and a doctor from Canadian Mounted Police and a cafe operator who volunteered to stay and feed the flood fighters.

Cars, trucks and even railway speeders helped in the mass evacuation when the Frenchman River, also known locally as the White Mud Creek, began to rise. Vehicles were forced to travel some distance on the railway grade before being able to proceed on the highway.

### WATER GONE

The town was ghost-like Tuesday night. Electricity was shut off and fresh water supplies were cut when flood waters swamped town wells.

The river began to rise early Tuesday. All but the business section of the town was flooded. An eight-foot dike thrown up Monday to protect the hospital gave way under the waters.

Sheriff T. L. Ferguson said in a telephone interview with The Canadian Press that the situation was "unchanged" at 2 a.m. today.

Earlier he said the situation had improved in the two hours before midnight.

"But there is still a lot of snow in the Cypress Hills west of the town and we're afraid the creek won't reach its peak until sometime tomorrow."

The sheriff said a Prairie Farm Rehabilitation Administration earth-filled dam about a mile west of the town was still holding, despite the water pressure.

"If it gives way . . . but we're hoping that the worst is over," he said. "We are a little concerned but we don't expect very much worse."

### IS IT THAT ABBOTT'S A GOLFER, TOO?

There's good news for golfers in the recent budget brought down by Finance Minister Douglas Abbott, it has been learned.

The price of golf balls is down 20 cents each or, if you're an addict, \$2.40 a dozen.

This was revealed by a local sporting goods firm today in the new list of retail prices received covering top-grade balls.

### B.C. Teacher Salary Hike Up for Study

VANCOUVER, April 16 (CP)—Demands for salary increases ranging from \$300 to \$800 a year for 6,500 British Columbia school teachers will be considered here today at the B.C. Teachers' Federation convention.

A report of the federation's salary committee recommends that the minimum scale range from \$2,300 for elementary basic to \$4,300 maximum; and from \$3,000 for secondary basic to \$5,400 a year maximum, with approximately 12 increments each.

The present average for elementary teachers ranges from \$2,092 basic to \$3,707, and from \$2,608 for secondary basic to \$4,654.

Vancouver secondary teachers have indicated they will press for a higher maximum than \$5,400 a year.

The committee report described the salary recommendation, along with eight other proposals, as "an immediate step toward the long-range aim of professional salaries."

The report also asks the convention to endorse the principle of smaller increments at the start of an elementary teacher's career.

The suggested pattern of increments for elementary teachers is: Two at \$100 each; three at \$150; six at \$200; and one at \$150. Two increments of \$150 and 10 of \$210 are suggested by the committee for secondary teachers.

### RETRACTION IS PUBLISHED

### Even Sun Admits It Wasn't Caddy

Meekly The Vancouver Sun has printed what amounts to an apology for its attempt Monday to "kill" Victoria's sea-serpent, Cadborosaurus, by suggesting that an elephant seal killed at Ucluelet was the famed monster.

In its editorial columns, Tuesday, the Sun admits Caddy cannot be written off that easily.

"The elephant seal caught at Ucluelet is no more Victoria's justly famed sea monster than first cousin to Joe Stalin," the Sun says.

"What elephant seal can hump its pitiful 14-foot body into three heaving arches as it swims? Or vary a face like a horse with the features of a camel on clear days?"

. . . frankly we see this attempt to dispose of Caddy as little more imaginative or likely to succeed than the tiresome business of trying to claim as Caddy's mortal remains "every basking shark skeleton that drifts up on the beach."

The Sun adds that Caddy himself with "greet the whole silly campaign with a water horse laugh that shakes the shores of Cadboro Bay."

### Portage Inlet Scheme Would Cost \$9,000,000

Two proposals for a race track and exhibition grounds are in the planning stage in Greater Victoria.

The first, and farthest advanced, would see such a project near Beaver Lake, Saanich. Dr. K. R. Darbyshire, well-known horseman and president of the B.C. Agricultural Association, is leading the drive for this scheme.

The second, very much in the preliminary stage, is planned for either the Portage Inlet or Esquimalt Lagoon area. An enormous project, it is estimated to cost \$9,000,000 and, in addition to three race tracks (two-horse and one car) and exhibition buildings, would embrace botanical gardens, a zoo, an ice arena and many other recreational features.

Plans for the project are being drawn by the B.C. architectural firm of Sharp & Thompson, Berwick, Pratt and Charles E. Craig, which has a branch office in Victoria.

Dr. Darbyshire said plans have been framed to take care of sanitation problems. He said the project may contain a smaller car racing track.

They are Gordon Head, Burnside and the Highland Park area of Saanich.

But the Portage Inlet site is favored.

Craig and Heidner did not specify the financial backing for the project. They say "American and Canadian interests have asked them to prepare preliminary plans."

The architects' project would cover 200 acres in the vicinity of Helmecken Road and Portage Inlet if that site were selected. Part of Portage Inlet would be filled in to accommodate the race tracks and grandstand. Several houses would have to be moved, and considerable privately-owned land bought up. Zoning regulations also would enter the picture.

Three other locations are being considered for the architects' project.

### Huge Inlet Plan Outlined

Here is an outline of the Portage Inlet project:

1. Twelve or more exhibition buildings covering 11 acres. These would include buildings for education, industry, home crafts, machinery, livestock, horticulture, forestry, agriculture. They would be located in an area between Four Mile Hill and Portage Inlet.

2. A three-quarter-mile horse-racing track. Inside this track would be a five-eighths-mile car-racing track, and inside that a half-mile harness-racing track. Inside that would be polo grounds. The race tracks would be on a peninsula which juts out into Portage Inlet just on the town side of the Four Mile railway overpass and partly on reclaimed land.

3. A grandstand to accommodate 20,000 with a terrace in front for 5,000 more. The club house would hold 1,000.

4. Stables to hold 1,500 horses. Facilities would be made available for spring training of horses.

5. A riding academy.
6. Botanical gardens.
7. "Theatre Under the Stars."
8. Aquatic club.
9. Zoo.
10. An ice arena.
11. Large recreation and sports grounds.
12. Picnic grounds.

Officials said the plan could be adapted to several different locations, but one suggestion is in the land between Helmecken Road and Portage Inlet, opposite Vickery Road.

### OPPOSITION DEVELOPS

Opposition to the Sharp and Thompson scheme developed immediately in the View Royal area, which would be directly affected.

W. Maude-Moore, vice-president of the View Royal Community Association, said the whole matter will be discussed at the association's monthly meeting on Monday.

"We have been building up a fine residential area in View Royal, and my view is that our residents will definitely be against the use of the property for this purpose," he said.

Dr. Darbyshire, who has almost completed plans for construction of a race track and exhibition buildings near Beaver Lake, said the Portage Inlet plan "just isn't feasible."

### Caddy Maligned in the East

Here is the sort of libel the Toronto Star News Service has sent out about Victoria's sea monster Cadborosaurus. It has spread this picture across the continent with the statement that Caddy is dead. It has fallen into the same error as the Vancouver Sun by confusing the elephant seal killed at Ucluelet with Caddy.

## ON THE TIMES

By ART STOTT

My friend Don Straith tells me there's no call at all these days for Prince Albert coats. They're way out of style, he says. Why, they haven't sold a Prince Albert for so long nobody seems to remember. But if I'd like something like one, a double-breasted number in a grey serge, with no belt in the back...

Me, I didn't want one. I was just asking. But he's wrong about Prince Alberts not being worn any more. Up at Shawnigan last week, the air over the lake was full of swallows. There wasn't a swallow-tail in the whole bunch.

Not being much of a bird-watcher, I figured swallows ought to have swallow-tails. When you expect to see birds in evening clothes, it's a little disillusioning to find them in something different. But those were Prince Alberts, all right. They were cut off square as a box at the end, and they were green—probably with age.

Cliff Carl tells me they were swallows—Violet Green swallows, he suggested—even if they looked a bit like miniature flying wings. The Violet Greens, it appears, have square tails, but that doesn't hurt their maneuverability. They can turn on a dime, bank and lift into an Immelman, sweep down in lulling loops and hedge-hop the small waves with their mouth hanging open to drink on the fly.

The birds, Cliff says, feed on small midges that the human eye scarcely sees, and they pick up May flies and mosquitoes, too, if they're around.

## A Sense of Wonder

Old coats or not, there's a sense of wonder in the flight of swallows. It's something more than one of the mysteries that baffled Solomon. There's poetry in it, grace, speed, a little of the excitement of youth. There is not enough music in words to describe it. Not even the sliding, rippling notes of a master's violin could do it justice.

Yet there is little need for description. It is enough to say that the swallows are back at the lake and thought is a quick movement that darts, slides, swings in unexpressed form to take the moving patterns of the birds.

There is a freethought design to the flight, dipping, lifting, turning, unrestrained and unpredictable. It is a grace dance of the spirit, something that cannot be confined. It fights free of regularity—that regularity which sets a false and static hour for the return of the swallows to Capistrano in an untrue and highly propagandized publicity stunt.

## Thread in Spring's Tapestry

Yet there is a continuity to it, and form in the design of spring at the lake. It is a thread which runs through the tapestry of days when mist rises in drifting streamers on the hills, like vapor from giant kettles.

It is the accompaniment of soft rain that makes perfect circles on the water, chiming so faintly the ear scarce hears the tiny bell tones. It is a fine etching in the air that is reflected in heavier and clumsier line by trout playing in the depths below.

It is sensitive as the new green that pushes from the branch ends of lakeshore growth, cleaner and more refined in the reflection of the water.

There is a quicksilver run of joy in the flight of swallows above the lake these April days, something to refresh tired eyes and lift the weary spirit.

It is compensation for the mild case of pneumonia a man contracts watching the birds, listening for the rain chimes and getting his feet wet on the lake shore.

## Destroyer Cayuga Plays Part in Korean Attack

SEOUL, April 16 (AP)—United States Shooting Stars and Thunderbolts today cut the north Korean rail line between Kunu and Huichon in 38 places.

North of Haeju, on north Korea's west coast, four U.S. planes destroyed two bridges and killed 10 Red soldiers caught in the open.

The fighter-bombers roared to the attack through heavy clouds under a protective screen of F-86 Sabre jets.

The Canadian destroyer Cayuga joined with British and U.S. ships to attack targets on the east coast Tuesday.

A flurry of Red probing jabs on the western front Tuesday evening touched off an Allied artillery barrage that lasted most of the night.

The Reds jabbed into lines at four places west and north of Munsan. Three probes were hurled back. The fourth, supported by 600 rounds of artillery and mortar, drove U.N. troops

## Hong Kong Reports Anti-Red Action

HONG KONG, April 16 (AP)—The independent newspaper Wah Kiu Yat Po said Tuesday anti-Communist elements blew up 10 airplanes, mostly trainers, March 20, at White Cloud airfield, Canton, considered the Chinese Reds' largest military air base in South China.

## Last Interview

NEW HAVEN, Conn., April 16 (AP)—John Alderhurst, interviewed on his 95th birthday April 3 at the iron works he had operated here since 1900, said he couldn't remember ever having had to stay away from work because of illness. He fell ill the next day, and was taken to a hospital. Tuesday he died.

## Canada Writing Brief on Seaway

OTTAWA, April 16 (CP)—Canada is expected to take prompt steps in co-operation with the United States to clear the way for a start in the giant St. Lawrence seaway power project.

Transport Minister Chevrier Tuesday said President Truman's decision to join Canada in application for permission to erect joint Canadian-U.S. States power facilities on the river, will strongly stimulate seaway action.

The minister added, however, he did not know what effect it will have on the U.S. Congress. Congress has long blocked action on the project by failing to ratify a 1951 Canada-U.S. treaty on the development.

Mr. Chevrier said Canada's part of the joint application to the International Joint Commission is "pretty nearly ready." It will go to the commission once it has been correlated with the U.S. submission.

The joint submissions will ask the commission—which has jurisdiction over boundary waters—for authorization for the government of Ontario and a U.S. agency to establish a 2,200-horsepower hydro development on the international rapids section of the St. Lawrence. The U.S. agency to take part in the development will be named later by the U.S. government.

Just when the submission will reach the commission is not known. But once it does, quick action is expected. It is believed here that the commission, which has been reviewing the seaway for years and has up-to-date information, will give the green light for a start on the project.

Canada has already decided to go ahead alone with the navigation works for deep-draught ships as part of the project. Parliament has endorsed legislation to set up a St. Lawrence seaway authority to construct and administer the system of canals and locks that will bring deep-sea shipping into the Great Lakes, but it leaves the door open for U.S. participation should Congressional approval be forthcoming.

The action of President Truman in agreeing to a joint submission followed a White House conference with External Affairs Minister Pearson and Transport Minister Chevrier in Washington Monday. The Canadian ministers asked the President to implement a 1951 undertaking to Prime

## Truman Ready To Increase Steel Wages

WASHINGTON, April 16 (AP)—The Truman administration today prepared to go over the head of the seized steel industry and give a wage boost to Philip Murray's steelworkers.

Whatever the terms might be, the steel industry was ready to fight back. Its lawyers had papers already drawn seeking a court order to restrain any payment of increased wages out of industry funds.

More than 100 of the country's leading industrialists stand behind the steel companies in a fight to the finish. They, or their representatives, pledged all-out co-operation at a meeting Tuesday called jointly by the National Association of Manufacturers and the U.S. Chamber of Commerce.

## All-Night Parley Fails to Settle Phone Strike

NEW YORK, April 16 (AP)—An all-night federal mediation huddle with union and management representatives was adjourned early today with "no progress" reported in the key telephone strike in 43 states.

But federal mediator Francis Maher said parties will resume talks at 2 p.m. E.S.T. (11 P.S.T.). Mediators said they intended to keep the Communications Workers of America (C.I.O.) and the Western Electric Company "in

continuous session with the hope of arriving at an agreement." Only 16,000 C.W.A. members, mostly installers, are striking against Western Electric, manufacturing subsidiary of the American Telephone and Telegraph

Company. But their hit-and-run tactics of shifting picket lines from place to place has threatened to tie up telephone exchanges in Washington, D.C., and the 43 states where Western Electric has plants.

Meanwhile, no immediate break was in sight today in the strike of the Western Union Telegraph System by some 30,000 A.F.L. Commercial Telegraphers Union members. This tieup was in its 14th day.

## HERE, THERE AND EVERYWHERE

Condensed from CP, AP, and UP Dispatches

**ANONYMOUS**—In Saskatoon a city of dog lovers—the city dog catcher apparently is a social outcast.

Civics officials announced today they have managed to secure a dog catcher, but added that he would remain anonymous "for private reasons."

**EARLY**—In Churchill, Man., staff members at the Churchill terminal elevator are reporting to work three weeks earlier this year to get a good start drying damp grain, it was learned today.

At present, the 2,500,000-bushel elevator is about 80 per cent full of wheat. To fill the elevator to capacity, wheat will be dried at the approximate rate of 15,000 bushels or nine cars daily.

Officials said the grade of wheat leaving Churchill this season will be higher than in 1951, due to a better-grade crop harvested last year in comparison to 1950.

Last season, 7,250,000 bushels of wheat were shipped overseas through the northern Manitoba port.

**APPOINTMENT**—Ft. L.L. Allan R. Westgate, 29, of Edmonton, a veteran of the British airborne landings in Sicily and Normandy during the Second World War, has been appointed to command the air force recruiting office in Calgary.

He succeeds Ft. L.L. Lloyd C. Olien, 33, of Winnipeg, who has commanded the unit for the past year.

**BEATEN**—Frederick B. West, C.N.R. station agent at St. Albert, eight miles north of Edmonton, was beaten and robbed of \$17 by a lone thief in the station Tuesday night. West needed hospital treatment for head injuries.

**RESPIRE**—In Calgary danger of the Bow River flooding in the Sunnyside district appears to be over for the time being.

Monday night an all-night vigil was maintained in the district by city police, who warned residents of the district that their homes would be in danger if the ice jamming continued.

By 2 a.m. the water had risen to the half-way mark on the dikes, but it began to subside shortly after.

**MISSING**—In Panmunjon Allied truce negotiators reported today that one of their silver-colored balloons is missing.

The balloon, one of those hoisted over this truce-talk site to warn airplanes away, broke loose Tuesday and was last seen soaring toward north Korea.

The United Nations command asked the Communists to watch for it.

**WHEW!**—In Berlin bomb experts gingerly unraveled today a mysterious package sent to the Allied war crimes prison at Spandau and found a two-pound Bible inside.

X-rays of the package Tuesday night tended to confirm police suspicion that a bomb was inside. The big, black Bible had blunted the rays.

The Bible was apparently intended by someone in southern Germany for delivery inside the prison where seven of Hitler's remaining top men, including former Deputy Fuhrer Rudolf Hess, are living out their remaining years.

**REGRET**—In Paris, General Eisenhower's visit to The Netherlands, scheduled for Friday, has been postponed by the death of French Gen. Henri Coudraux.

Coudraux, deputy chief of staff for logistics and administration on Eisenhower's staff, died in hospital Tuesday. He was 56.

Eisenhower, making a farewell tour of North Atlantic Treaty capitals before returning home for the presidential nomination battle, announced "profound regret" over his deputy's death.

The French general will be buried Friday.

**"UMM!"**—In New York a bank that lends money free, and has never turned away an applicant for a loan, is celebrating its 60th birthday—with a loss record of less than 1/4 of 1 per cent.

The Hebrew Free Loan Society on New York's lower east side lends up to \$500 for six months to anyone who can get endorsements from two reputable business men.

It has loaned \$40,000,000 in its 60 years, paying operating expenses from private contributions. Many of these came from former borrowers.

**FRESH**—In Frankfurt Helen Phillips, American negro soprano, said today that she slapped the face of a Russian soldier "for protection" while on a train in the Soviet zone of Austria.

She said she was returning to West Germany from a concert tour in Austria last week when the incident occurred.

"He and his officer came into the compartment and the soldier tried to get fresh with me," she said in an interview.

"He tried to get me to talk politics with him," she said, "but I wouldn't, and when he grabbed my glasses and tickled me under the chin, I slapped him good and hard."

## Convicts Hold Guards Hostage

New Jersey State Prison Inmates Seize  
Print Shop in Rebellion Against Warden

TRENTON, N.J. April 16 (UP)—Rioting convicts who dubbed themselves "the scum of society" went without food and water today behind barricades in the New Jersey State Prison print shop.

A gang of 54 prisoners seized the building and held two guards and two printing instructors as hostages Tuesday in the prison's third rebellion against Warden William H. Carty in 17 days.

When they refused to come out Tuesday night at the request of Sanford Bates, New Jersey commissioner of institutions, the water was cut off in the print shop and the rebels were denied food.

Bates and Gov. Alfred E. Driscoll scheduled a meeting today to plan a course of action. The commissioner earlier said he favored appointing a prisoners' committee to present their grievances.

**WRECK PREMISES**

The rebels scattered type on the print shop floor and pushed heavy machinery and tables against doors and unbarred windows. They shouted to Bates they would not come out until conditions were improved.

The prisoners said they objected to the administration of Carty, who worked himself up from wall guard to warden, and to published reports of immorality among inmates and their easy access to liquor and narcotics.

William Dickens, serving 12 to 21 years for robbery, acted as spokesman for the rioters. He promised Bates no harm would come to the hostages, guards Oris Robinson and Charles H. Smith, and instructors Peter Buch and Myron Diudick. They permitted medicine to be sent Tuesday night to two of the hostages who have heart trouble.

"We're not giving up," Dickens told Bates. "We are outlaws from the world go. We're the scum of society. You can send in the National Guard on us but we won't give up. We know we're going to get the worst of it."

Carty, who was attacked by a prisoner shortly after he was named warden, or principal keeper, last November, said, "We could break it up in 10 minutes if it weren't for the hostages."

## Police Called Taggers For City Hall Coiffers

Police Commissioner William Hamilton charged Tuesday at a commission meeting that the police department is acting as a "collection agency for the City Hall" by wholesale tagging for parking meter violations.

He was referring to 731 tickets issued by the police in February for meter violations. The fines swelled city coffers by \$729.

He said "a warning would do more good" than a ticket for motorists who violated a meter.

"I don't think there are 700 law-breakers in the city," he said, and asked if it was the policy of the police department to ticket every motorist for overtime parking.

Replied Chief John Blackstock: "We issue no instructions to the constables that so many tickets each day have to be produced" and added that it is up to the policeman whether he issues a ticket or a warning.

There are about 1,200 meters in the city.

Hamilton said "the taxpayers pay for the meters and your police department's wages . . . they should have some leniency."

Police Commissioner Brent Murdoch said he would like to see the job of tagging meter-violating motorists and the collection of fines turned over to City Hall.

Traffic officer Ed Hamer, asked to express his opinion on the parking ticket problem, told commissioners: "Some cars never move all day," and added: "At least triple the number of motorists who should get tickets are given warnings."

## Two in Hospital After Car Crash

Two women were sent to hospital and two cars received medium damage Tuesday night in a collision at Vancouver and Johnson.

Suffering shock was Patricia M. Trotter, 1719 Fairfield, driver of one of the cars, and a passenger, Mrs. Joan Shannon, 2503 Gravelly, who received a bruised head and leg.

Uninjured driver of the other car was Richard Oliver, 2574 Florence.

## Additional TV Stations May Help Victoria

Victoria television fans are to be given a break by Uncle Sam. United States authorities who control essential building materials have decided to make material available for the construction of more television stations.

The decision is significant here since applications have already been filed for new TV outlets in Seattle, Bellingham and Port Angeles.

If the applications are approved it will mean Victoria viewers will be able to dial their TV sets for various programs just as they do their radios.

At present only TV programs picked up here are those emanating from Seattle's KING on channel five.

Rogan Jones, owner of radio station KVOS in Bellingham, says he will undertake construction of a TV broadcasting station as soon as approval is given by the Federal Communications Commission.

He thinks he could have the station in operation by late summer or fall.

Best reception in Victoria would be from the proposed station at Port Angeles, just 16 miles across the Strait of Juan de Fuca.

## Wider Authority For Local Union

Victoria local of the Laborers' International Union has been successful in getting its jurisdiction extended to cover all of Vancouver Island.

Until now, the local with offices here has been able to organize only as far as Ladysmith. Beyond that, the Vancouver local had jurisdiction.

Under a new ruling from the union's international headquarters, Vancouver jurisdiction will expire as present work contracts expire, and then the Victoria local will take charge.

## Clearance of GIANT-SIZE LINO

See these on our SECOND FLOOR. Save on these SPRING CARNIVAL LINO SPECIALS!

## Socreds Name Local Candidates Women May Contest First Ballot

Victoria Social Crediters Tuesday night nominated a former Liberal, Ald. Donald Smith, as one of their candidates in the June election.

Ald. Smith is a former executive member of the Victoria Young Liberals.

Other candidates named were E. D. McEwan, who is the party's Vancouver Island organizer, and Mrs. Lydia Arsen, wife of a Douglas Street restaurant owner, and an active Social Credit since her school days.

When in Alberta her high school principal was Dr. William Aberhart, who later became Alberta's first Social Credit premier.

Mrs. Arsen's nomination probably will make a three-woman fight for the first of Victoria's seats. She will be listed on the same ballot paper as Madame Speaker Nancy Hodges, the Liberal choice, and Mrs. Margaret Harvey, who is expected to be named a Progressive Conservative candidate, in all probability.

One of the three straight Coalitionists in the last British Columbia Legislature announced Tuesday night he will stand for re-election as a Liberal.

Herbert J. Welch, Comox, will allow his name to go before a Liberal nominating meeting next Monday.

Mr. Welch said he had been approached by both Liberals and Progressive Conservatives since the Coalition break-up in January.

He has been a straight Coalitionist since his election in 1945.

The Comox Progressive Conservative group will choose a candidate in the riding April 25 at a meeting in St. John's Parish Hall, Courtenay. Only candidate to date is Major Charles Coull of Denman Island.

C.C.F. candidate for Comox is William Moore.

**MAINLAND NOMINEES**

Burnaby riding Progressive Conservatives Tuesday night nominated Oscar Olsen, 51-year-old iron works manager, as their candidate in the June election.

Mr. Olsen, making his first bid for political office, was the sole nominee.

On the third ballot, Donald

A. S. Lanskill of Langley Prairie was nominated as Liberal candidate for Delta. A 34-year-old lawyer, Mr. Lanskill defeated Surrey's Reeve Charles Schultz and three other aspirants.

J. D. McRae, Prince Rupert M.L.A. in the last Legislature, was unanimously nominated as the Liberal candidate in that riding.

## EN ROUTE HOME

## First Canadian Unit Given Korean Relief

By BILL BOSS

WITH THE CANADIANS IN KOREA, April 16 (CP)—The first unit to leave the Canadian forces in Korea under their spring rotation program departed for home today.

No. 54 Transport Company of the Royal Canadian Army Service Corps wheeled out of its lines less than 24 hours after its replacement unit reached Korea.

No sooner was the hand-over completed than Maj. Bob Loughton of Ottawa, commanding officer of the company, ordered his men into their waiting trucks, entered his own jeep and led them southward, grinning broadly.

The men will spend a few days in Britannia Camp in Korea and in Japan for documentation and medical checks before embarking for Canada.

Meanwhile Brig. John M. Rockingham, commanding officer of the 25th Canadian Infantry Brigade, inspected companies of the Royal Canadian Regiment and the Royal 22nd Regiment which reached Britannia Camp by train Tuesday night after disembarking at Incheon.

In his welcoming remarks to the newly-arrived troops, he told them the cherry berets they wear as trained paratroops are strictly for behind-the-lines wear.

## The C.C.F. Moves to the Left

AS A DELEGATE TO THE C.C.F.'S recent Vancouver convention, Dr. J. M. Thomas, of Saanich, made perhaps the best comment on the party's new Christ-mas-tree platform: "I don't," said Dr. Thomas, "like the idea that to be a socialist you have to disregard the cost."

Dr. Thomas may not like it, but the C.C.F. in British Columbia intends to load the taxpayers with incalculable millions in extra costs. No party in the history of this province has ever proposed anything half so reckless as the taxpayers' expense.

To begin with, the C.C.F. undertakes to wreck the hospital insurance scheme outright. Its premiums would be rolled back and the cost, in millions, would be fastened on the treasury and the taxpayer. Co-insurance would be abolished, the hospitals would be overcrowded again, as they were before this system was established, hospital costs would rise and, moreover, many more hospitals would have to be built. We should no longer have an insurance scheme. We should have a state service of unknown cost, financed out of taxes.

Secondly, the C.C.F. would increase—by figures which it has not bothered to announce, if it has calculated them—the provincial cost of education when the provincial treasury assumed most of the present burden and thereby encouraged the municipalities to increase it.

Nothing is said in the seven-point platform, of other costs which the C.C.F. would raise in all directions. Undoubtedly they would be raised, according to the continual demand of the C.C.F. members in the legislature for higher social services of many sorts.

But the C.C.F. has an easy way to finance all this. It will pay for its gigantic new budget out of a steeply graduated tax on mineral and timber wealth. This sounds easy. The big interests will pay everything.

Does anyone imagine that the big interests, the mining and timber industry, will actually pay? Most of the taxes which are levied on them will be handed on to the consumer in prices, as they always are. The ordinary man will pay. But if the C.C.F. could thus disguise its extravagance the effects of its policies would be more serious in another fashion.

Today British Columbia is perhaps the most prosperous area in Canada, one of the most prosperous in the world. Why is this? Because huge sums of investment capital are coming here to develop

our resources, to create new goods, to increase the general wealth. They have come mainly because investors expect fair treatment from the government. If they are now to be exposed to the kind of treatment offered by a C.C.F. government that investment will dry up overnight.

If anyone doubts this he has only to consider the position of Saskatchewan under a C.C.F. government. After stopping the flow of investment into that province the Douglas government has reversed itself, is now bidding desperately to attract the capitalist who, not long ago, was regarded as the source of all evil.

The C.C.F. here would frighten off capital not only by taxes, some of which could not be handed on to the consumer in prices and all of which would threaten to price goods out of the market. In addition, the C.C.F. would hold the threat of expropriation over all investors.

At the moment its program of socialization covers electricity, transportation and communication but this, it is stated, would be only the initial step. No industry could ever be sure that it would be safe from expropriation without notice.

As Mr. Joseph H. Corsbie, president of the C.C.F., says, the new platform is "a people's platform because it is a socialist platform." Exactly. The C.C.F. of British Columbia is perhaps the only socialist party in the world which is sticking to its socialism.

The theory that government can always manage business better than private owners has been abandoned by the socialist parties of Britain, Australia and New Zealand after their failure and defeat in office. The C.C.F. in the Canadian Parliament has long been playing down socialism. Mr. Coldwell has been trying to repeal the Regina Manifesto which proposed to extinguish the evil of free enterprise.

But in British Columbia the C.C.F., desperate to win an election, has lunged again to the left. It proposes to put this province under a socialist system. It proposes to hand the management of the provincial economy over to a government headed by Mr. Harold Winch. In a final bid for popularity it undertakes to spend far more than any provincial government has ever spent before regardless of the cost to a taxpayer already paying too much. The C.C.F. always damning the other parties for their dishonesty, is trying to buy an election with prodigious promises, to bribe the electors with their own money.

## Look Who's Talking

MAYOR CAMILLEN HOUE OF Montreal, with that exaltation sense of public manners which has always distinguished him, has launched a bitter attack on the Governor General of Canada. Mr. Massey, says Mr. Houde, is "the most tenacious of all the centralizers and thus is an enemy of Quebec's autonomy." This statement, interestingly enough, was made within a few hours of Mr. Massey's speech vigorously defending the culture and genius of the French Canadian race.

So far as one can discover from Mr. Houde's rather confused statement, Mr. Massey is attacked because he headed a royal commission on Canadian culture and thus schemed for "federal intrusion in the domain of teaching." Apparently, since Mr. Massey's commission favored federal government grants to universities it is plotting to interfere with provincial control of education.

Even for Mr. Houde this is a remarkable distortion. Nowhere does the Massey commission propose to interfere with provincial control of education and, had it done so, it would have been repudiated instantly by the present Canadian government and by most of Parliament.

In undertaking federal grants to universities Mr. St. Laurent himself a French Canadian—made it perfectly clear that he would never attempt to control the educational systems of the provinces. A few days ago, when some members of Parliament proposed that the government go further and give aid

to primary education Mr. St. Laurent flatly refused for, as he said, the federal government could not possibly justify such huge grants of money without having some control over their expenditure.

No one in Ottawa is proposing to touch the provinces' absolute control of education. No one is interfering with the autonomy of Quebec as provided in the Canadian constitution. It was only when Mr. Duplessis, Mr. Houde's former leader and friend, construed "autonomy" as meaning, in 1939, that Quebec could contract itself out of the war that the federal government interfered and Ernest Lapointe went home to destroy the Duplessis government.

There can be no such "autonomy" in any nation but true autonomy, as it relates to provincial power over education and other matters specifically prescribed by the constitution, does not need Mr. Houde's defense.

He rushes forth to scream "autonomy!" when no one is attacking it. He brings the Crown into politics for no reason but his own local politics. He attacks a Canadian Governor General whose appointment is a final symbol of Canada's autonomy.

Perhaps too much attention should not be paid to Mr. Houde. He has been notably silent since he was clapped into jail by another French Canadian, Mr. Lapointe, for opposing the government's war measures. Now he is bidding desperately for public attention by a typical appeal to prejudice. Happily this is the voice of Houde, not of Quebec.

## Health and Propaganda

REPORTS OF AN EPIDEMIC RAGING in China give support to the suggestion that Moscow's current spate of charges regarding germ warfare is an attempt to direct attention away from backward sanitary and public health arrangements.

Peiping radio has referred in recent weeks to the diseases that are afflicting China. The United Nations also has reported on the grave nature of the outbreaks. There can be no doubt that a serious situation has developed—sufficiently serious to cause Red propagandists to try to pin the blame on the democracies.

At the same time, the Communists' recalcitrant attitude contributes to the problem. In their zeal to rid their country of any agencies that do not give full allegiance to the Communist regime, the Chinese Reds have banished scores

of foreign doctors, nurses and health specialists who in times past rendered invaluable service in combatting epidemics with modern equipment, drugs and methods, and could be doing the same now.

In addition the Communist refusal to permit United Nations personnel to inspect conditions and ascertain the truth of germ warfare charges, or even to pave the way for United Nations assistance or Red Cross aid, have made the difficulty more acute.

Apparently no price in Chinese misery and death is too great to pay to save the face of the Communist government and protect it from the revelations of inefficiency and incompetence that no doubt would result from a neutral health survey. Dogma, "plans" and Marxist ideology remain the first consideration; mankind holds a lesser priority.

## Their Hands in the Soil

ADVANCE PUBLICITY ON THE VANCOUVER Island Rock and Alpine Garden Society's show now in progress here indicated that children's work would be featured among the displays.

Provided that section meets expectations, an answer will have been found for the frequent complaint that young people cannot be interested in such engaging and valuable hobbies. A public which reads the crime news and clucks its tongue over reports of juvenile delinquency is frequently prone to ignore the fact that while many youngsters appear to get into trouble, they represent but a small fraction of those who find constructive use for their time and energies.

That point could be made time and again in Victoria, but on no occasion

more emphatically than when young gardeners demonstrate their accomplishments. There are other seasons in the year when tribute is paid to children for their work with the soil. The Rotary Club, among others, honors them with awards for specific plots. The various horticultural groups recognize their efforts.

Here, surely, is one of the most useful of all interests in which children can be engrossed. The hobby they learn at an early age is one which does not stale.

The section for children in the rock and alpine show should attract wide attention. It is important to the "city of homes and gardens" to know how the younger generation is preparing itself to maintain that slogan.

## Chips Off The Old Brock

By DAVID BROCK

I'VE BEEN looking at some extracts from a recent and fairly exact translation of Omar Khayyam's Rubaiyat. Fitzgerald didn't go in for exact translation, he went in for

poetry, magic, bite, and such. Sometimes he even made the lines sad and haunting when Omar himself was writing parody, satire, and topical stuff. (I'm no scholar, but this is what the boys tell me.) What made me jump most in the literal translation was the

stanza about the jug of wine, book of verse, loaf of bread, and thou. By the way, Fitzgerald's familiar version, so often quoted, seems less moving to me than his other version:

"Here with a Loaf of Bread beneath

the Bough,

A Flask of Wine, a Book of Verse—

And Thou

Beside me singing in the Wilderness—

And Wilderness is Paradise enow."

BETWEEN this and the lines you know better, you will note several differences. Among the improvements I count the loss of the final exclamation mark, the quieter "and wilderness" instead of "O, wilderness," "flask" instead of the faintly flat-footed "jug," and the ascending order of the bread, wine, and verse . . . to mention a few things.

Well, anyhow, Omar didn't really stick to bread and wine when he was ordering that picnic. No, sir. What he really sang was something like this: These simple things if they be mine—

A loaf the purest heart of wheat,

A thigh of lamb to be my meat,

For thirst a flagon of good wine;

And if, to cheer my wilderness,

A maid refusing not my kiss,

That were a life of perfect bliss.

No sceptred sultan can possess.

AND he didn't want a book of verse at all, you see. After all, he made his verse up out of his head, as required. I have known painters who refused to look at paintings . . . even their own, when finished. I've known composers of music, and even performers of music, who didn't want to hear music. So Omar's refusal to have a book of verse brought along on a picnic devoted to lamb sandwiches, wine, and kissing . . . well, dammit, who can blame him?

STILL, when the reader is sitting at home with a book of verse, I think he may prefer Fitzgerald to Omar. Fitz was dead right to ring in that volume of poetry, and to leave out the roast meat. And if you had forced the old proteins on Fitz, I bet he'd not have made it a thigh of lamb. If you're going to such lengths, you might as well call it a drumstick of lamb and be done with it. It is called a leg of lamb in English, which is the language the translator is talking. However, I suppose we should be glad that Omar didn't yell for a bowl of tripe. Maybe the book of verse was tripe and that's why he left it at home. The translation sounds mighty like tripe, but whether that is Omar's own fault or not, I am not here to determine.

THE ANNOTATED CALENDAR

THE large calendar that hangs in our kitchen has got some curious notes scratched onto it, to remind us of future engagements. I don't mean just stuff like "April 20—supper with Smiths damn." I mean single words that must baffle outsiders. I see at least three such words on the April sheet. One date says FROGS and another says VIOLET and a third says GOOSE FEATHERS.

These simply mean that during this month we mean (or meant) to drive the children to some pond to hear frogs for the first time in their lives. To drive around during the season's first twilight (after a fair day) to look for the queer violet light that strikes the sea, sky and mountains in some April twilight at this latitude and in these parts . . . oddly enough, it never comes in early September twilights, when the sun is back at the same place.

AN ENGLISH traveller once wrote that this light occurs only in Vancouver, and it is true that I've seen it from the top of the Lions Gate Bridge and from the top of the Marine Building there, looking northward, but it does occur elsewhere too. So much for Violet. As for Goose Feathers, we found some wonderful ones on a farm last April and made Indian war bonnets with them. We don't know if they always fall off in April, but we mean to find out. Those three words are as dull as that. No thrilling secrets at all.

I SAW another queer calendar last week. It was a complete one for 1952, printed as the letterhead of a busy man. Instead of dating his letter to me, he just inked a circle round what he guessed was the right date. Being as efficient as all this, he was only one day out. Since this was my first letter from him, I don't know if he has a new letterhead every year or just corrects each page that's left over. This was a 1952 one all right. Maybe he'll be sick of the whole thing by '53 and the problem won't arise. There was one good idea in the letterhead though. A huge arrow ran down from his printed name to my written one, so I'd know which was him and which was me. And which part of the letter was for me . . . the calendar was his and the message mine, you see.

## Gas Future

Calgary Herald

The one great fallacy in Alberta's approach to the gas export question is, it seems to us, the assumption that we can sell our gas as easily in 20 or 30 years' time as we can sell it now. We believe this assumption to be highly dangerous, for several reasons.

One of the dangers has been underlined by a statement given to a member of our Ottawa bureau, Reginald Hardy, by Dr. N. J. Dewar, one of Canada's top atomic scientists. "The situation in respect to the development of atomic energy for industrial purposes," says Dr. Dewar, "certainly looks more promising as time goes on."

Right now, we can find markets for all the gas we can produce. The provincial government and its conservation board think that this happy condition will continue indefinitely. We wish we could share their optimism, but we cannot.

## Window Dressing

## As Our Readers See It

### ROOF GARDEN

Will you kindly allow a small space in your valuable paper to offer a suggestion to the Arena Commission with regard to the arena roof.

Why not build a roof garden on top of the arena with 12x12 timbers with a tongue-and-groove flooring which would be waterproof. The weight of same would be on the main walls and not on the roof. This space could be used as parking space, which is at a premium, or winter garden where dancing and pink teas could be held. The City Council could make lots of money.

The roof of the Arena would be a beautiful spot to entertain our visitors. It would eliminate the awful sight of the barrel roof, which is only a source of expense.

Think this offer over, gentlemen, and save the money which would be wasted on tar and gravel.

Plans for the above will be supplied free of charge.

F. T. ROGERS.

185 Sims Ave.

### COMMUNITY CHEST

While in Ontario my wife and I always considered it a privilege as well as a duty to contribute as generously as we could to the Community Chest fund—a social service that is so widespread in its general helpfulness to the many needy and distressed. Until recently she has always canvassed in her neighborhood, while I have only been at liberty to volunteer as such since retiring 10 years ago.

Regarding the general business section of Victoria, having been associated with several team captains, I have found the average merchant and professional man interested, well-informed and sympathetic as well as quite generous—for Victoria definitely has more money in circulation than the average Canadian city of like size—and this may well apply to those south of the border.

I have no doubt that in yesterday's drive Victoria will have met the necessary objective and again go over the top as she usually does in no uncertain fashion.

SYDNEY G. COLE.

1239 Pandora Ave.

### LILIES

Mr. Bruce Hutchison tells us our wild lilies are not lilies, that they are dog tooth violets, "an Anglo-Saxon name, and revolting." The press tells us this every spring.

I don't believe any loyal Anglo-Saxon ever referred to a lily as a violet. Unless he happened to be drunk. And if he saw a resemblance in our eternal lilies to dogs' fangs, he'd be needing medical attention.

If our lovely lilies are officially designated dogs' teeth, one must look back to the racial animosity of the time at which they were so designated.

As a history student, tired of the way Anglo-Saxons let themselves get pushed around, it's a comfort to know

that our skunk cabbage came by its Anglo-Saxon name honestly.

In this connection, since British Columbia motorists must now carry the effigy of a heathen idol on their motor cars whether they are heathens or not, could they not carry Anglo-Saxon insignia on their cars next year? Not in a spirit of animosity, but merely for a change.

GLADYS SHRAPNEL.

1578 Clive Drive.

### LIBERAL NOMINATIONS

I read with astonishment and puzzlement that "three sitting members of the legislature will be Liberal candidates for the three Victoria legislative seats in the coming general election. The Victoria Liberal nomination convention will not be held until next Thursday the 17th, but it was announced last night that nominations have already been closed. The announcement was made at a meeting of the Ward Four Liberal Association."

How in the name of all that is holy, can these three people be in the run again when they have not been nominated in the proper fashion at the convention which does not take place in Victoria until April 17? These facts are completely out of order.

What were the paid-up ward members doing to allow such utter lawbreaking?

May I in closing state that to my mind there has only been one real Liberal in that provincial House for some years, and that man was George Pearson of Nanaimo, B.C. I understand he is now retiring from politics.

Talk about dictatorship, this surely takes the cake, and it is pretty bad cake at that.

MRS. ADELAIDE B. MARSHALL.

1415 Cook Street.

### YOGA CONTROVERSY

I suppose there will not be many who have anything against the physical exercises advocated by Swami Shivananda, as reported some time ago in the Times; that is, not in general.

Only there was one, described and portrayed, which is unnatural. I mean the one where Swami advocates to swallow a long, clean rag to clear up a dirty stomach, and then pull same out again.

Stomach cleaning in such an unnatural way is absolutely unnecessary; all a person has to do is to chew properly. Chew, chew and chew again, and stomach, intestines and the other organs involved, will clean themselves through digestion and elimination in the natural way.

I was surprised to read that there is a law in Canada which forbids a transient to charge for teachings (or other work, I suppose). We hear of restriction of trade, etc. This restraint seems to be in the same class; a case where the law is an ass!

That a certain Sikh group does not want Swami to teach in their temples is, of course, their private affair.

F. H. STAVEMAN.

Langford Lake, B.C.

### Spring?

Calgary Herald

We supposed it must have been spring. But it had been so long since we saw or heard or even felt, what has technically been called spring, that we were overwhelmed. When we got to our office, the effects were too severe for us.

We dropped the 98-page edition of The New York Times we were pretending to read; we pushed the tenth biennial report of the federal department of statistical odds and ends into a wastebasket; we filed all the letters to the editor into the deepest, darkest pigeon-hole; we broke all the keys off our typewriter so we couldn't get mad at anybody and walked out.

## Developing A Bigger Bomb

By JOSEPH and STEWART ALSOP

From Washington

THE world's first hydrogen bomb will be tested by the United States within the next few months. According to present plans the place of the test will be Eniwetok, in the Pacific, and the time will probably be next September.

This new installment from Pandora's Box of science is not (one must thank God) the terrible weapon, one thousand times more powerful than the destroyer of Hiroshima, which scientists envisioned at the beginning of the experimental process. It is a species of compromise, in which the two heavy isotopes of hydrogen, tritium and deuterium, will increase the force of a conventional nuclear explosion.

According to informed forecasts, the new bomb will have an explosive power of between 200 and 300 kilotons. In other words, it will be from ten to fifteen times more powerful than the original Hiroshima bomb, but only about two to two-and-one-half times more powerful than the most advanced nuclear weapon previously tested, at Eniwetok last year.

If these forecasts are correct, the new bomb will be capable of devastating an area of approximately 50 square miles which means one hit to a great city—as against eight square miles for the Hiroshima bomb—which meant five to eight hits for a megalopolis.

If there is any consolation at all in these macabre statistics, it lies in the fact that they are not much more stupendous. In truth, the oncoming explosion of this new hydrogen bomb is probably less important news, for the long run, than the growing scientific opinion that the explosion of the true hydrogen super-bomb will never take place at all.

No doubt the power of the hydrogen bomb that has now been built can be rather considerably increased in later models. But, according to reliable information, it lacks the most important characteristics of the originally envisioned true hydrogen super-bomb. These were, very simply, limitless in size and power.

The theory of the hydrogen super-bomb is still considered to be completely sound. If you can use the heat of nuclear fission to trigger the successive fusion of tritium and deuterium, you can still build a bomb that will blow up a nation or the world. But in order to do this, you must construct a bomb mechanism which will hold together for a good many micro-seconds during the terrible initial trigger explosion, and the view is gaining ground that this kind of bomb mechanism simply cannot be constructed from the poor, frail materials available.

What all this means, shorn of its technicalities, is that the problem of atomic energy will only grow a little bigger and a little more terrifying, when the new hydrogen bomb has been satisfactorily tested.

There is at least a shred of good cheer in the thought that the problem is unlikely to get absolutely out of hand, as it would if any insane ruler could produce a world-destraining weapon in order to repeat Hitler's "twilight of the gods" on an even larger scale.

This shred of good cheer is not very much to cling to, however, if the implications of the next test at Eniwetok are at all seriously pondered. Unfortunately, while scientific opinion now tends to rule out the true hydrogen super-bomb, it is also tending towards a radical revision of estimates of Russian atomic progress.

"If we can do this much," the scientists are saying in effect, "then it stands to reason that the Soviets are also surpassing former expectations."

## Ups and Downs

By BRIAN TOBIN

EVERYBODY, said the Elevator Man, "seems to have a little sideline to keep him happy. There seems to be a terrific need for the new frothing-on life's cake, that liqueur with the coffee. The daily routine of life isn't enough. You apparently have to have something to go with it, fanciful, exciting, maybe even a little adventurous. With that clause in your life-long labor contract. You can take a flier out of the rut now and then, up to a mental clown suit and relax. They used to say there's a field marshal's baton in every private's knapsack. There's a clown's slapstick in every civilian's hope chest, too. Going up!

"So," said the Elevator Man, "because of all this, we have our periodic entertainments. We have Cabaret-sur-sur to help us remember that there's more to life than haddock and fileted cod. We have Cougars and hockey series, to let us enjoy a contest that's only fun in the long run and not a life and death matter like the struggle most of mankind is engaged in. We have 24th of May parades, which in one sense are a lot of wasted money, time and effort, but in another are samples of that fantasy that makes all the money, time and effort spent on serious things worth more. We have picnics and stamp collections, big game hunting and backyard gardening. We have ball games and operas, school sports and supper dances. They're all part of the business of trying to prove that things aren't as bad as they seem. And sometimes they succeed. Mezzanine!

"You can," said the Elevator Man, "carry it too far. The world of fantasy may become so real the rest fades away. Then you get into the mental state of the funny dream last night," says one. "I dreamed a lot of little men were dancing on my body. They had pink caps and green suits and funny red boots that curled up in front." "Yes; and there was a tinkly little bell at the toe of each boot," said his friend. "How do you know that?" asked the first fellow in surprise. "There are a couple of them still on your shoulder," said the other, and drained his glass.

## WEATHER SYNOPSIS

VICTORIA'S SUNSHINE  
RECORD TO DATE, 1952—  
384.6 HOURS

**SYNOPSIS:** Gale force winds are still occurring in the waters near the Queen Charlottes and along the northern mainland. More than two inches of rain have fallen over these areas in the past 24 hours ahead of the disturbance which is now moving slowly eastward over the northern coast. Increasing cloudiness is expected to spread south along the coast during the day with rain at night and scattered shower activity continuing through Thursday. Southern interior valleys will enjoy sunny weather today. Cloudiness is likely to invade those areas Thursday, but it is unlikely that there will be any significant precipitation.

### REGIONAL FORECASTS VALID UNTIL MIDNIGHT THURSDAY

**VICTORIA:** Occasional light rain tonight. Occasional rain Thursday. Little change in temperature. Winds light, increasing to easterly 20 during the night. Low tonight and high Thursday, 45 and 53.

**WEST COAST:** Overcast Thursday. Rain in the northern area spreading slowly to the southern area by tonight. Showers Thursday. Little change in temperature. Winds southeast, 20 to 40 in the northern area, shifting gradually to southwest by mid-day and decreasing to 25 during the afternoon. Light winds in the southern area, increasing to southerly 30 tonight and diminishing slowly Thursday forenoon. Low tonight and high Thursday at Estevan Point, 45 and 55.

**VANCOUVER AND GEORGIA STRAIT:** Light rain tonight. Cloudy with showers Thursday. Little change in temperature. Winds light, increasing to easterly 20 in the Strait tonight. Low tonight and high Thursday at Vancouver, 45 and 55.

## Britain Ready To Pledge Aid

Willing to Enter War if Any Nation Of Proposed European Army Attacked

LONDON, April 16 (CP)—Britain is ready to sign a treaty pledging herself to fight immediately and automatically in the event of an attack on any of the six nations of the proposed European army. And in return, the six continental powers have agreed to go to war to help Britain if she is attacked.

Announcements by the seven governments Tuesday disclosed that Britain has agreed to extend pledges of military aid formally to West Germany and would strengthen her commitment to fight off any attack on Italy.

The new pact will take effect when the six countries ratify a treaty establishing the European defense community and its unified army.

### MORE IRON-CLAD

Britain already has promised to help defend France, Belgium, The Netherlands and Luxembourg—other members of the proposed E.D.C.—under the 50-year Atlantic Pact. But Foreign Office officials said the new pledge is more iron-clad.

Five divisions of British occupation troops in Germany also are a practical guarantee of help to the Germans as long as the troops remain. The new pledge, however, will extend through the remaining 17 years of the Atlantic Pact—longer than the troops are likely to stay in Germany.

The six countries who will establish the E.D.C. have been negotiating for months and expect to overcome the last of such stumbling blocks as division of finances and setting up a central authority sometime in May.

The treaty then will be ready for signature, followed by the process—perhaps a long and difficult one—of ratification by the six parliaments.

One of the chief effects of the British promise is expected to be a psychological boost to doubtful parliaments, making ratification easier.

The main purpose of the E.D.C. treaty is to provide some 400,000 German troops for Western defense, without recreating a separate German army, navy and air force which would be feared throughout Western Europe, particularly in France.

Britain had stood aloof from requests to join the E.D.C. but had promised to work closely with it. A formal British statement said the new pledge "demon-

### Rich Purses in Ontario Racing

TORONTO, April 16 (CP)—The Queen's Plate, scheduled for May 24 at Woodbine Park, will have an estimated value of \$21,000.

The plate running tops the Ontario Jockey Club's 14 days of racing, from May 17 to June 2. The spring season will offer approximately \$200,000 in prize money.

Other important races are the William Hendrie Handicap, \$3,000; King Edward Gold Cup, \$3,000; Connaught Cup, \$2,500; Woodstock Plate, \$2,500; Woodlands Handicap, \$2,500; Highlanders' Handicap, \$2,000; Victory Handicap, \$2,000; and the Galloping Handicap, \$2,000.

**FUNERAL NOTICE**  
Members of Pro Patria Branch, Canadian Legion, B.E.S.I., and the Ladies' Auxiliary are requested to attend the funeral of our late Comrade Fred Varney at McCall Bros. Funeral Chapel, on Friday afternoon, April 18th, 1952, at 3:00 p.m.

## Council Okays Highways Signs In Esquimalt

Clubs and organizations in Esquimalt will be permitted to advertise themselves under the big sign that marks the beginning of the municipality on Esquimalt Road, but they will have to be satisfied with lettering only two inches high.

This was decided by municipal council Tuesday after considerable discussion.

Discussion was provoked by a request from the Esquimalt Lions Club to erect a sign at the municipal boundary on the main artery from Victoria.

Council decided such a sign would be all right if it were not more than six inches in depth and provided it had no more than two lines of lettering.

Most councillors liked a sketch of the proposed sign and speculated that four or five other organizations would want such signs once they saw how well it looked.

But Councillor Walter Holder wasn't so sure. A member of the Lions Club, he thought the club should be allowed a bigger sign with bigger lettering.

He argued passing motorists would not be able to see the sign his fellow councillors proposed.

"That's a terrible sign," he declared. Nevertheless, others on the council voted to accept it as a standard pattern.

# ISLAND DIGEST

**THETIS ISLAND, April 16**—Major Richard Clowes is confined to Chemainus General Hospital for treatment of foot injuries received when his sock became caught on the drive shaft of his boat engine.

He was able to reach shore and his home safely, where a stretcher party carried him to a waiting car.

**NANAIMO, April 16**—Funeral services were held this week for Harris Gill, 53, who died at Nanaimo Hospital following a lengthy illness.

A native of Cumberland, he moved to Nanaimo in 1911, and for the past 10 years was employed by the city water works department. He was a past president of the Civic Employees' Union.

**SOOKE HARBOR, April 16**—Mrs. Thomas Wright won the grand prize when the cribbage season closed at Sooke Legion Hall. Her husband made the highest aggregate score in last year's play.

**SIDNEY, April 16**—Attendance was poor at a meeting sponsored by Sidney and North Saanich Chamber of Commerce to discuss transportation in the area.

Due to the absence of G. C. Parrott, general superintendent of Vancouver Island Coach Lines, discussion was postponed to May 25.

## BIG FAMILY

### 77 Survive Aged Woman

**NANAIMO, April 16**—A family of two sons, five daughters, 23 grandchildren, 43 great-grandchildren, and four great-great-grandchildren survive Mrs. Bessie L. Butcher, North Wellington, who died at the home of a daughter in Cedar District.

Most of the family resides on Vancouver Island.

The funeral will be held Friday afternoon, with Rev. J. H. Wright officiating.

**NANAIMO, April 16**—Game Warden Frank Greenfield has warned that anglers violating the fishing laws will be hauled into court now that the fishing season has opened.

On Tuesday, two fishermen were convicted of fishing for trout with salmon roe, and others will be charged for fishing without licenses.

**DUNCAN, April 16**—Funeral services were held today for James Peter Moury, 81, resident of Vancouver Island for 65 years and well-known Kinsum Narrows fisherman.

He died at King's Daughters' Hospital Saturday.

**DUNCAN, April 16**—Winners of the hunter trials and race meet sponsored by Cowichan District Riding Club Easter Monday were C. C. Carpenter, Victoria, open hunters; George McGee, quarter-mile western scurry, western pony express and quarter-mile flat race; Judy Banks, children's hunter trial; Miss Jane Banks and John Nichols, hunter pairs; Mrs. Devere Hunt, quarter-mile flat race over 15 hands.

**VANCOUVER, April 16**—An influenza epidemic on Vancouver Island's west coast that claimed the lives of two babies and incapacitated hundreds of Indians has subsided, Dr. F. S. Tennant, of the Indian Affairs Department health services, announced here today.

James Harold Evans, who strained his heart carrying sandbags during the Fraser River flood of 1948, was found dead at his Pender Island home on Monday, R.C.M.P. here reported today.

Death apparently was from natural causes.

Born at Port Greville, N.S., in 1899, he was a First World War veteran and had lived on the island two years. He had no known relatives here.

Island war veterans are making funeral arrangements.

## Cowichan School Board Plans \$20,000 Spending

### 98 LOSE JOBS IN UP-ISLAND MILL CLOSURE

**PORT ALBERNI, April 16**—Closing of Great Central mill by MacMillan and Bloedel Ltd. has thrown 98 men out of work, according to Jack Moore, financial secretary of I.W.A. Local 143.

Of 308 men employed at the mill, 210 have been placed in the company's mills in Port Alberni.

"Some of the unemployed men have worked for the company for up to 25 years," Moore said. "It is a calamity for them."

## TROPICAL TIMBER

Most of the hardest timbers such as teak, ebony and mahogany are found only in tropical forests.

## New Prairie Industry Makes Panels From Reeds

**PORTAGE LA PRAIRIE, Man. (CP)**—Two Netherlands with imagination are carving a new building supply industry from the frozen delta marsh, 16 miles north of here.

A factory they have completed here compresses reeds from the marsh into valuable building panels.

Behind the enterprise, known as Dutch Building Panels Ltd., are Baron W. C. G. Rengers and

his assistant manager, Leon De Haan. Already they are thinking of expanding the plant.

Outside the building are piled 800 tons of reeds plucked from the marsh with grain-type binders. Inside, 10-ton machines compress the raw materials into five by eight-foot panels.

Beauty of the reed panel is that it can be used for both exterior and interior work, says De Haan. Insulation, acoustic and fire-resistant qualities are excellent and the panels can be impregnated with liquids or insecticides without damaging the surface.

The panels should cut construction costs by a third, De Haan says. They are rigid without being brittle and can be sawn into any shape.

Baron Rengers says the reed supply in the marsh is "unlimited." Cutting this year was an easy operation because there was little snow.

## FAMOUS SOLDIER

Nathan Bedford Forrest, a Confederate commander in the American Civil War, was ranked as one of the greatest of cavalry leaders.

**Darken GRAY HAIR**  
Apply Orlex  
like a hair dressing  
LOOK YOUNGER QUICKLY!

At last you can completely color gray, faded or streaked hair as easily as using a hair cream. With amazing simple-to-use Orlex, your hair gradually becomes darker—more attractive and natural looking. Because Orlex darkens and covers gray hair gradually, no one will know you color it. It won't rub or wash out, leaves hair soft, manageable with beautiful highlights. Over 1,000,000 customers can't be wrong. Orlex must please you or money back. To find a younger you, tomorrow get Orlex from your druggist today. It's easy to use and costs little.

## BELLHOP OWES \$6,372 BACK INCOME TAX

**CLEVELAND, April 16 (AP)**—The government told a \$10-a-week hotel bellhop today that he owes \$6,372 in back income taxes.

The bellhop, Everett O. Saffell, 51, conceded to authorities that he had done "all right" on tips.

The back taxes, listed in a lien, covers the years 1944-1950. Tax collectors in the office of County Recorder Edward J. Coleman said Saffell was caught only because Middleburg Heights Patrolman Jack Wilkins arrested him for speeding March 7.

Wilkins said he found bankbooks listing deposits of thousands of dollars in Tennessee banks.

## Canadian's Diamond 'Holiday' Over

**LONDON, April 16 (CP)**—Nobody would say so officially, but there were signs today that the diamond dispute between Canada's Dr. John Williamson and South Africa's Diamond Sales Corporation may be building up to a climax.

Reports here said that Williamson is trying to sell his stones on the London market again after a sales "holiday" which has lasted since June, 1950.

William Tayleur, London spokesman for the Williamson organization, said he hoped to have something for publication within a few days.

The diamond dispute, largely fought out behind the scenes, started with a disagreement over prices between Williamson, a 45-year-old Montreal geologist, and the Diamond Sales Corporation controlled by Sir Ernest Oppenheimer.

Williamson had a contract to

market his stones through the Corporation, which holds a near-monopoly on world sales. Dissatisfied with the prices paid by the corporation, he withheld his output from the market starting in June, 1950. Batteries of lawyers were hired by both sides to try to reach a settlement but apparently none has been reached.

The contract between Williamson and the corporation expired last December 31. Despite that, unofficial observers here predicted that Williamson's resumed attempt to market his stones privately will cause violent reactions from the Oppenheimer syndicate.

The Williamson diamonds come from a mine in Mwaduli, Tanganyika, probably the world's richest of its type.

Whatever happens, there is unlikely to be a large drop in world price of diamonds. This was stressed privately by spokesmen for both parties when news of the

dispute first leaked out last summer. Williamson's main objective is believed to be to obtain what he considers fair rates for his stones, and to go on with his task of building the world's most modern, mining community in the scrub country of Tanganyika.

## Fire Quenched In Royal Suite

**DETROIT, April 16 (AP)**—A small fire broke out Sunday in the penthouse of the 30-floor Hotel Sheraton-Cadillac, home of Queen Juliana and Prince Bernhard on their current Detroit visit.

The Netherlands' queen and her husband were away at the time on their tour of the city.

Firemen, racing through the hotel lobby and up the elevators, took quick care of the blaze.

## LAYMAN'S APPEAL SUCCESSFUL; PREVIOUS CONVICTION QUASHED

J. Tees spent a profitable 10 minutes before Appeal Court judges Tuesday afternoon.

Arguing in his own behalf, Tees was successful in having a police court conviction against him quashed. The conviction was on a charge of stealing a wallet, containing \$10, and a package of cigarettes from a hotel room in Cranbrook earlier in the year.

Before the local magistrate, Tees was found guilty and sentenced to four months in jail.

Before the appeal judges, he argued evidence against him was wholly circumstantial; that although arrested minutes after the alleged offense he had no more than \$2 on him, and the only thing against him was some loose cigarettes found in a bureau drawer in his room.

Appeal Court judges agreed the evidence was weak.

## Britain to Screen Atomic Scientists

**LONDON, April 16 (Reuters)**—screened, the Daily Mail reports.

Two hundred British scientists now being chosen for the atomic weapon experiments in Australia investigated before he is told he next September are to be chosen," it says.

# Everybody's a Daily Newspaper Reader

We're willing to make a small wager that you don't know anyone in Victoria who can read who doesn't read a Victoria Daily Paper.

Circulation figures prove it:

\*Local daily newspaper circulation in Victoria, 36,434  
More than one to every home.

\*Local newspaper average daily circulation, 46,273  
\* Latest Audited Figures by the Audit Bureau of Circulation.

# Everybody's a Customer

Most of these homes have more than one reader and each reader is in the market for many things; not just food and clothing, but homes, furniture, hired help, a

new or used car, a job, professional services, heating equipment, fuel, a piano, radio, boat, baby carriage, bicycle, sewing machine—anything and everything.

# Everybody's an Advertiser

You can profit by selling something to the thousands of local daily newspaper reader-customers. You can sell them various household items you no longer need, such as a refrigerator, range, washer, bicycle, baby carriage and a dozen and one other articles. You can

sell them your house, your lot, your car. You can rent them a room, a cottage or garage. You can sell them your services as an employee. You can advertise with profit.

# CLASSIFIED ADS WILL DO A GREAT JOB FOR YOU

## Classified Ads are Proven Value

If you have ever used a classified ad for any purpose, you have proved to yourself that they produce fast, sound results. Your friends will tell what classified

ads have done for them. And the evidence before you every day of the value Victoria businessmen attach to newspaper advertising, is convincing proof.

## Classified Ads Cost so Little

A three-line classified ad (15 words), appearing for one day, costs just 75 cents. Yet it can sell anything from a \$5 chair to a \$50,000 house.

It can find a job for you. It can hire the help you need. It can find a lost pet or an apartment. It is an amazing value.

## Classified Ads are Easy to Use

Anybody can run a classified ad. No advertising talent is necessary. Just phone B3131. Tell the helpful efficient ad-taker what you want to advertise. She

will write your ad to do the best job for you. You will be billed after the ad has appeared.

## New York Up Led by Rails

NEW YORK, April 16 (AP)—Railroads provided the lion's share of strength today in a generally higher stock market. Prices ranged from fractions to three points higher to fractions to around a point lower.

Volume was estimated at 1,400,000 shares.

Railroads, with oil interests, were among the most popular. Oil issues were favorites in the market along with motors, utilities, and some chemicals and copper mining issues.

There were additional corporate reports today showing lower first-quarter earnings against a year ago despite improved sales pictures.

## Toronto Gains

TORONTO, April 16 (CP)—Slightly firmer support today toward the stock market's close slowly erased early losses.

Western oils and a few penny golds attracted some speculative interest but turnovers were moderate. Industrial dealings spread slowly from leading issues. Selected lower-price base metals also showed activity. Volume for the session was about 3,400,000 shares.

Papers, liquors and miscellaneous issues showed a broad list of losses to form industries' weakest sections. Utilities, foods and textiles also posted a majority of declines while steel, refining oils, banks and construction held gains and losses in balance. Manufacturing companies and retail stores pushed upward.

## Montreal Mixed

MONTREAL, April 16 (CP)—Prices were mixed in slow trading near the close today on the Montreal Stock Exchange and Curb Market.

Papers and carriers slipped while utilities turned slightly higher. Plus and minus signs were scattered evenly across the remainder of the board.

Canada Cement dropped a point to 69 and Hudson Bay Mining lost 1/2 to 32. Also down were Electric Boat, Abitibi, Seagrams, Imperial Oil, Ford, C.P.R. and Royal Bank.

Aluminum climbed 1/2 points to 101 1/2 while McColl-Fontenac advanced a point to 39 1/2. Others gaining, ground included Donohue Brothers, B. I. Consolidated Smelters, Dosco and B.A. Oil.

## Vancouver Active

VANCOUVER, April 15—Noon close trading was active. Vancouver Exchange in the early session today and favorites among the western oils leaders made some substantial gains.

There was a downward drag on the market for most of the session from the mines and industrials but the tone improved towards the finish.

New Continental, still gaining, went to \$3.30; Pacific Pete was \$13 1/2 and Calvac \$8.50.

## London Stronger

LONDON, April 16 (Reuters)—Japanese bonds surged about five points higher today on the stock exchange on renewed demand which followed signing of the Japanese peace treaty by President Truman.

German bonds advanced in sympathy with gains of up to 2 1/2 points.

British government securities closed barely steady under profit-taking induced by recent advances. Initial gains in these stocks were replaced by small losses in some cases.

Industrials finished with no definite trend. There was some selective support for engineering issues.

LONDON, April 16 (AP)—Stocks advanced 1/2 to 1 1/2 points today on the London Stock Exchange on renewed demand which followed signing of the Japanese peace treaty by President Truman.

# Cattle Embargoes May Push Down Peak Prices

By BURKE CAHILL, Times Business Editor

Politicians are notoriously fond of babies. This pillar doesn't mix in politics as a rule but it happens that a handy husting slogan has just come to light.

"If I am elected," candidates might promise, "I'll see that every baby in B.C. gets an extra bottle of milk."

The fact is, dairy farmers may be battling a milk surplus and skidding prices before the end of this year.

According to the latest survey by the federal department of agriculture, Cahill

farmers who were hit by high costs last year, and forced to cut production of dairy products from milk, may this year find themselves with 250,000,000 pounds more milk than they need.

Four factors are working to produce a surplus of milk: (1) Farmers are cut off from markets that formerly took their surplus dairy cows, as a result of the cattle embargo; (2) The U.S. still has a ban on dairy products from Canada; (3) Dollar-short Britain will buy no cheese from Canada this year; (4) The dairy cow population has increased by 16,000.

DAIRY SALES

Normally Canadian dairy operators sell some 45,000 head of top-grade dairy cows to the border states, to replace herd losses there. Since most of these are carefully selected, the department figures their milk output average at some 300 pounds per year.

On that basis, the department's review estimated the dairy cows that will be kept in Canadian herds because of the foot-and-mouth disease embargo will produce about 272,000,000 pounds of milk annually. Because the exports usually are spaced throughout the year, the department guesses the actual resulting increase in milk production because of the embargo will be 136,000,000 pounds.

However, the loss of cheese and skim milk markets and the increase in the total dairy cow population is expected to add nearly another 100,000,000 pounds to the surplus depending on feed supplies.

B.C. PICTURE

A check with local dairymen and with Arnold Webb of the milk board reveals the professional opinion that a surplus of milk on a national scale would probably affect B.C. dairymen.

B.C. normally produces just about enough milk for its own needs. This year, officials estimate that production and consumption of milk in the province will be just about in balance, although a slight surplus is indicated due to less rigid culling of herds for beef stock.

However, canned and powdered milk are regularly brought into B.C. and lower prices for these would affect local markets.

The federal government and Consolidated Mining and Smelting Co. Ltd. today were reported to have arranged for construction of a 70-mile lead-zinc area of Pine Point on the south shore of Great Slave Lake.

The road, estimated to cost \$50,000 to \$70,000, would run from a point near Hay River, N.W.T., on the Mackenzie highway just across the Alberta border.

## GRAIN

### WINNIPEG

WINNIPEG, April 16 (CP)—Most prices moved to higher levels in moderately active trading today on the Winnipeg Grain Exchange. Rye was weaker at the close.

Oats received minor shipper support, while barley advanced on export buying in connection with reports that 100,000 bushels of this commodity had been sold overnight to the continent.

No information was available on the session.

Consolidated Mining and Smelting Co. Ltd. today were reported to have arranged for construction of a 70-mile lead-zinc area of Pine Point on the south shore of Great Slave Lake.

The road, estimated to cost \$50,000 to \$70,000, would run from a point near Hay River, N.W.T., on the Mackenzie highway just across the Alberta border.

## Exchange

MONTREAL, April 16 (CP)—The United States dollar was at a discount of 1 1/2 to 2 1/2 per cent in terms of Canadian funds, the Bank of Canada reported at noon today.

EST. Tuesday's noon rate was \$0.98 3/4. The pound sterling was \$2.95 1/2, unchanged from Tuesday.

NEW YORK, April 16 (CP)—The Canadian dollar was down 1/2 of a cent at a premium of 1/2 per cent in terms of United States funds in foreign exchange, dealers today. The pound sterling was down 1/4 of a cent at \$2.95 1/2.

## Calgary Power Income Higher

CALGARY, April 16 (CP)—Net operating earnings of Calgary Power Ltd. were \$4,728,700 for the year ended Dec. 31, 1951, the company's annual report shows.

The report said the company grossed \$7,566,148, an increase of \$1,400,593 or 22.7 per cent over the previous year. Operating expenses, of which \$1,079,412 is accounted for by purchased and steam-generated electric energy amounted to \$2,837,448, a decrease of \$46,113.

Net operating earnings for 1951 were \$1,945,769 higher than the \$3,139,557 total of 1950. After payment of preferred dividends the balance carried to surplus for the year was \$1,218,751.

## New Cominco Post

TRAIL, B.C., April 16—R. C. Bell has been appointed a senior research engineer, according to an announcement made today by D. D. Morris, manager of the research and development division of the Consolidated Mining & Smelting Company of Canada Ltd.

Mr. Bell joined Cominco in the spring of 1938, after graduating from the University of British Columbia with his B.A. and B.Sc. in chemical engineering.

In 1944, Mr. Bell was made an assistant research engineer. He held the latter position until his recent appointment.

During 1949, Mr. Bell carried out research for Cominco at the mines branch of the Dominion government at Ottawa, and in this connection is a co-author of a paper on zinc die casting which is to be published shortly. He is a member of the Chemical Institute of Canada.

He was born in Nelson, B.C., and Mrs. Bell lives in Rossland and have four children.

# Big Trade Meet For City Set

Final plans are being set for the big industrial conference of the Pacific Northwest Trade Association being held for the first time in Victoria on April 20 to 23, officials of the Victoria Chamber of Commerce report.

Victoria will be represented on the board of directors of the Pacific Northwest Trade Association (U.S.); Col. Warren D. Lamport, managing director, Port of Seattle; Col. L. Moore Cosgrave, western representative, Canadian Department of Trade and Industry.

In addition to those on the board of directors, large delegations from the various cities, states and provinces will attend. Among those from here are J. V. Johnson, Major Cuthbert Holmes and T. G. Denny.

It meets prior to the semi-annual general conference April 21 and 22 which will be devoted to a two-day program covering latest developments in basic industries and renewable resources through-out Alaska, Western Canada and the Pacific Northwest states.

## R.C.A.F. Intelligence Probes Flying Saucers

NORTH BAY, Ont., April 16 (BUP)—The R.C.A.F., which once laughed off flying saucer reports as products of over-ripe imaginations, today ordered its intelligence experts to study the cases of several discs reported over North Bay in the past four months.

Four airmen stationed at the North Bay base told their superiors they saw flying discs float silently over the local air station and an R.C.A.F. statement said there was no reason to doubt the report.

All of the men were described as veterans with several years experience identifying conventional aircraft.

WO. E. H. Russell, an aircraft maintenance supervisor, and Sgt. Reginald McRae turned in reports that they saw a "bright

amber disc" over the field last Saturday. They said it hovered briefly and then zoomed away at a "terrific speed."

Two other men on the station, WO. J. W. J. Yeo, a master telecommunications technician and Sgt. D. V. Crandell, an instrument technician, said they saw a "red-orange ball" flash over the field at a fast clip last Jan. 1.

Yeo and Crandell said they timed the object for eight minutes and 43 seconds and watched it move "roughly parallel to the earth." They said it changed direction slightly at times, "zig-zagging and climbing and diving without a sound."

The air force eagerly declined official comment about the flying saucers whose existence at one time was investigated thoroughly by the United States air force and declared questionable.

## College Plans Retail Store Credit Course

VUKELICH

Films, case method and demonstrations will be used by Prof. L. M. Vukelich of University of British Columbia in his retail credit and retail store management courses here.

They will be given by Victoria College evening division at the college May 12 to June 9 and Sept. 8 to Oct. 6 on successive Monday nights.

Prof. Vukelich is a graduate of the University of Washington in business administration and has had eight years' experience with one of the largest retail organizations in the United States.

His lectures will touch on all aspects of retail credit and store management.

### BIG APPETITE

The teenager usually has a big appetite and, to maintain his growth and great activity, often needs more food than an adult. Plenty of milk and good nourishing food will help to keep him healthy.

## Esquimalt Police Scold Undisturbed Councillors

Esquimalt Police Commission sent a reprimand to municipal council Tuesday night but council members refused to be ruffled by it.

The commission's letter concerned council's decision to install stop-and-go traffic lights at Admirals and Head Street intersections on Esquimalt Road. The commission earlier recommended motorists only be required to stop at these intersections when pedestrians were crossing.

The commission's letter made it clear it did not appreciate council going ahead on its own without first giving the commission's plan a trial.

Tri-colored traffic lights have already been ordered. They will be installed as soon as delivered.

The lights were originally called for by the Esquimalt Municipal Ratepayers' Association.

The association now is calling for improvement to the curve at

Dunsmuir and Dominion Roads. Council agreed the traffic hazard matter to the police commission for study and report.

## Better Sewage Prospect for Forshaw Area

A new installation to rid Esquimalt's Forshaw Road area of its present sewage problem would cost in the neighborhood of \$6,000, E. Fulcher, superintendent of municipal public works, informed members of the council Tuesday night.

He explained the new installation would take care of the effluent from septic tanks in the area, a source of repeated complaints from residents. He noted, too, residents were willing to share the cost of the project on a local improvement basis.

Before the work could proceed, however, permission would have to be obtained from provincial health authorities, as some of the effluent would be directed into the Gorge.

Councillors decided to adjourn discussion on the matter until provincial authorities were heard from. It will be dealt with when other public works estimates are considered.

## Refuse to Dismiss Jewish Officers

BEIRUT, Lebanon, April 16 (AP)—A proposal to dismiss Jewish officers from the Lebanese Army was rejected by the Chamber of Deputies today by a vote of 30 to 16. The resolution introduced by Deputy Emile Bustani was supported by a bloc normally opposed to the government.

## Lama Returns

HONG KONG, April 16 (Reuters)—The Chinese Communist-backed Panchen Lama, who claims spiritual leadership of Tibet, has entered the country, ending an exile imposed on his predecessor 30 years ago. Peiping radio said today. The 15-year-old Panchen Lama entered Tibet March 9 and was given a "warm welcome," the broadcast said. The Panchen's predecessor was refused re-entry into Tibet by Dalai Lama, political leader of the country.

## Will Call Dentists

MILWAUKEE, April 16 (AP)—The U.S. armed forces this summer will start calling up dentists with priority III ratings. Brig-Gen. Louis H. Renfrow, deputy-director of selective service, said Tuesday. This category includes all dentists, except veterans, who are under 50 years of age and veterans if their service was prior to dentistry training.

## 15-Year Sentence

CAMBRIDGE, Mass., April 16 (AP)—Oscar Desrosiers, 37-year-old handyman accused of beating his sister to death with a milk bottle after an argument over insurance left by another brother, was sentenced to 15 to 20 years in state prison Tuesday. Government and defense counsel reached an agreement to permit the lesser manslaughter plea in the murder trial.

Farewell to a Swell Gang

A farewell dinner was given Monday for the Victoria Cougars, the team that has provided excitement galore for this city over the past season, by the management of the Poodle Dog Cafe. Seated around the table from left to right are: Andy Heberton, Bob Frampton, Reg

Abbott, Fiori Goegan, George Wilkinson, trainer, Gerry Cotnoir, Bernie Strongman, Roger Leger, Ernie Roche, Doug Anderson, Walt Atanas, Joe Medynski, Les Hickey, Leon Bouchard, Jack McIntyre, Eddie Dorohoy and Bob Ballance.

## Records Topple As Wings Capture Cup

### IT'S MY VIEW

By BILL WALKER, Sports Editor

By this time tomorrow, the Victoria Cougars and Saskatoon Quakers will be heading away from the tall timbers out here in God's country for the wide open spaces and the final games of their Pacific Coast Hockey League final series.

They're going to give the Hub City fans a look at this one—and it may go all the way between the battling men of Roger Leger and craft that Doug Bentley has moulded together under the Quaker banner.

But while this party goes on there's another date on the calendar which draws near with each passing day.

Down south a newcomer to our shores out here on the Pacific is heading north with the 1952 edition of the Victoria Tyees. He is Cecil Garriott, whose knowledge of Victoria was gained from a second-storey hotel room during a flying 48-hour visit here a couple of months ago.

And we thought it would be kinda nice if the little guy got a real Victoria welcome when he shows up here in slightly less-than-two-weeks' time.

And before we leave we thought we'd like to tell Cec that we were a lookin' for a bridesmaid at the W.I.L. wedding this year. We haven't had as much of a flower girl through the past six years, and it's getting kinda lonely waiting outside the church.

We grow our fans keen up here in these parts, Cec. They take the good with the bad as long as things don't go rancid and they'll stick around if it looks like there's goin' to be some sort of a shindig worth waitin' for.

**Brickbats and Bouquets—It's All Over**

We'd also like to welcome the new Tyees. Sorry we won't be around to greet 'em personally when they break through the glamour of opening day down in Yakima county six days hence, cause we've still got another bridal party we're figurin' on attendin' down in Saskatoon.

The reception will probably hang over into the ball season if our cats lick up the cream, but we'd like to make it official for Garriott and his debutantes before they get all preened up for the ball.

But lest we forget, we've got another date down at Memorial Arena tonight and the Cougars have invited some 5,000 guests to sit in on the show. It's all over after this dinner.

The glass-slippeder kids have given us a lot of heartaches and lots of thrills during the year—but it's the latter that will linger on. And we were just a wonderin' what kind of a send-off they're a goin' to get as they skate onto the ice for the final time this year.

Some of the old favorites won't be with us again next year. Some have come to the end of the trail; others are looking up the ladder with its golden stairs.

Certainly would be kinda sweet if there was some way we could show our appreciation in this here final shower.

The brickbats have been mixed in with the bouquets up to now—but how it's all over.

**The Fellows Would Like It . . . So . . .**

We've got another prospective bride leavin' our midst and though most of the guests won't be on hand for the wedding in Saskatoon, sure would be nice if the bridal party could get a suitable going-away present.

And the thought just occurred—that one way to do it would be to hold up announcing the team line-ups until after the playing of the National Anthem—and then re-introduce the players one by one.

Seems to us the boys would like that.

Cam McKenzie, sports editor of the Saskatoon Star Phoenix, says it's likely that Regina will be represented at the annual Pacific Coast Hockey League meeting in Seattle next month. . . . President Al Leader has heard nothing official from Regina interests, however. . . . Saskatoon goalie Lorne Worsley is reported to be an outstanding footballer, having played centre-forward again Fulham last year. . . . Soccer fans wishing to assist Victoria United financially can do so Saturday by purchasing the excellent souvenir program produced by George Eade.

It has been rumored unofficially that the Saskatoonians who went fishing Tuesday ate meat for supper. . . . Longest home run on record is credited to Babe Ruth with a 602-foot smash off Bert Cole in 1926 but Ernie Lombardi can top that one. . . . The Schnozzola hit one over the 387-foot fence at Cincinnati; the ball landed in a truck and driver drove 30 miles before he found the ball. . . . Red McMillan's injury is certainly a blow to all city sports fans who loved the little redhead with the fighting heart. "One of the cleanest players I ever saw," said boxing referee Bill Wilkes of the terrier last year. . . . "And one of the best defensive men in the game." Best of luck Red.

**Pats Win to Tie Memorial Series**

REGINA, Sask., April 16 (BUP)—The Regina Pats whipped the Fort William Hurricanes—5-2 Tuesday to tie their best of seven Western Canada Memorial Cup hockey final series at two games each.

The fifth game will be played Thursday.

The Pats held a 1-0 lead at the end of the first period, but the Hurricanes broke through until then had looked like a stone wall defense to tie the count at 2-2 in the second stanza. Joe Sauve, Gordie Cowan and Ed

Litzenberger scored in the third period to give the Pats their victory margin.

**CORWIN OPTIONED**

NEW YORK, April 16 (AP)—Pitcher Al Corwin, whose five victories late in the season helped New York Yankees clinch the 1951 National League pennant, was optioned to Minneapolis by the American Association Tuesday.

WHITE PLAINS, N.Y.—Miguel Betzina, 123, Puerto Rico, outplayed Alex Fimbres, 124, Phoenix, Ariz., 6-

## Habs Unable To Solve Sawchuk

DETROIT, April 16 (CP)—Detroit Red Wings, a team that did everything expected of it and tossed in a couple of record-breaking licks for good measure, today are the proud possessors of the Stanley Cup, professional hockey's most-sought-after treasure.

The champions belted Montreal Canadiens 3-0 here Tuesday night before a standing-room crowd of 14,545 to complete the best-of-seven round in four straight.

With it, the club termed by manager Jack Adams as his "best balanced team in 25 years," wrote in a couple of revisions in the National League record books.

**NEW RECORD**

Tuesday night's triumph, fashioned on the two-goal performance of Metro Prystai and a single by Glen Skov, gave the Wings their eighth straight victory in the play-offs, a record.

And it was the fifth season they have won the double tie-league and cup—another record.

Personal satisfaction also went to freckle-faced Terry Sawchuk, 23-year-old Winnipeg-born goalie-keeper who had four play-off shutouts, two over Canadiens and a pair against Toronto Maple Leafs as the defending cup champions dropped four straight in the semifinals.

Sawchuk equaled the mark set by Dave Kerr with New York Rangers in 1937 and repeated by Frank McCool with the Leafs seven years ago.

Canadiens, who finished the league schedule in second place 22 points behind Detroit, were a well-beaten club. They had a revamped line-up due to injuries and were physically worn out after a tough seven-game semifinal with Boston.

**STRENGTH IS DEEP**

But even at full strength and rested, it is doubtful they could have taken this 1952 edition of the Wings who haven't an obvious soft spot from the goal out to the 16th man on the bench.

Richard was almost the goat as he sat out a holding penalty when Prystai banged in Delvecchio's pass at 6:50 of the opening period from about 10 feet out. But the Rocket, a great competitor, flashed great form for the remainder of the session and it wasn't his fault Canadiens didn't score.

Skov made it 2-0 with 21 seconds remaining of the second period when Montreal's defense weakened and the clincher was supplied by Prystai at 7:25 of the third. Prystai also got an assist on Skov's counter.

**FIGHT RESULTS**

By The Associated Press  
SACRAMENTO, Calif.—Art Agan, 143½, Los Angeles, stopped Freddie (Babe) Herman, 138, Los Angeles, 10.

TORONTO—Harold (Baby Face) Jones, 141, Detroit, outpointed Allan McPater, 142, Toronto, 16.

**SECOND-HALF HONORS WITHIN GRASP**

**United in Final Stand Saturday**

Victoria United can tighten the knot on the second-half championship of the Pacific Coast Soccer League Saturday afternoon at Athletic Park, but they'll have to beat Vancouver Firefighters to do it.

One of the two teams with an outside chance of catching United—New Westminster being the other—Firefighters will be supplying the opposition for United's final home game of the year during the regular schedule.

One victory in their final two games will assure United of no worse than a tie for honors—the

## NHL SUMMARY

Montreal—Goal: McNeil; defense: MacPavon, Bouchard, Harvey, Johnson, Long; forwards: Richard, Moore, Masur, Geoffroy, Curry, Reay, Omsstead, Lach, Mager, Marshall.

Detroit—Goal: Sawchuk; defense: Goldham, Pronovost, West, Kelly, Nelin; forwards: Skov, Lewicki, Pavelich, Landau, Howe, Prystai, Abel, Delvecchio, Wilson, Stastek.

Referee: Bill Chadwick. Linesmen: Bill Morrison and George Hayes.

First Period—1, Detroit, Prystai (Delvecchio, Wilson), 6:50. Penalties: Bouchard 24, Lewicki 4:09 and 18:10, Richard 4:59, Marshall 14:25.

Second Period—2, Detroit, Skov (Prystai), 10:29. Penalties: Delvecchio 9:35, Moore 11:45.

Third Period—3, Detroit, Prystai 7:35. Penalties: None.

**Saanich Hoop Presentation Set Tonight**

Saanich and Suburban Basketball Trophy presentation will take place at the Saanich Agricultural Hall tonight at 9.

Following teams will be awarded cups won during the year:

Bayview Woodworkers, Ernie Stock Trophy; Sooke senior B men, Tolmie Cup; Saanich Intermediate B men, runner-up cup; McMoran's Intermediate B boys, Bob Whyte Trophy; Forrester's Intermediate B girls, Colwood Ladies' Institute Trophy; Saanich Junior boys, Dad Quick Trophy; Saanich Junior girls, Saanich Police Trophy; Sooke midge boys, Ernie Stock Trophy; Saanich midge girls, Saanich Women's Institute Cup and Saanich Community Club Cup.

Community Club Cup; Brentwood pee-wee girls, Saanich Community Club Cup.

Bob Whyte and Dad Quick will be special guests at the presentation ceremonies.

**HOOP FINAL**

KITCHENER, Ont., April 16 (CP)—Superior speed won out again Tuesday as the Kitchener Waterloo Y.M.C.A. Blues turned back Saint John N.B. Atlantic 58-48 to win the Canadian intermediate basketball championship in two straight games.

**B.C. CHAMPS TO BE PRESENT**

**Three Cities to Clash On Fight Card Saturday**

What promises to be one of the finest exhibitions of amateur boxing seen in this city for a long time will be staged under the auspices of the Vancouver Island Amateur Boxing Association at the Bay Street Armories Saturday.

To headline the fight card, which will be between boxers from Victoria, Alberni and Vancouver, Bobby Shires, B.C. champion in the 118-pound class for 1952, has been billed to meet Equimall's Paul Calvey.

Both Shires and Calvey have an impressive record of wins, tucked under their belts.

In the 160-pound class, Vancouver's Jack Sullivan will take on Bert Wilkinson, and Bob Rumney from Alberni will face Kerwin Johnson in the 140-pound division.

**SILVER BOY TO BOX**

Alberni's Bernie Hamilton, who was runner-up to the 1952 B.C. Silver Boy, will take on 112-pound Bobby Thompson from Esquimalt, while Jack Schroeder, Vancouver Island Silver Boy, will

meet Equimall's Dave Bruce in the 106-pound division.

Gettied down into the pint-size ranks, Don Tremblay from Alberni, who tips the scales at exactly 90 pounds, will slug it out with Terry Hallam from Esquimalt, while Vancouver's Norm McLeod, B.C. Silver Boy for 1952, will meet Jim Moody from Police Boxing Club in an 80-pound match.

**GROPP TO FIGHT**

Rusty Gropp, said by many to be one of the finest fighters in these parts, will take on Jackie Shires from Vancouver in the 75-pound class, while Alberni's Bernie Hamilton will battle with Equimall's Gordy McGaw in a 70-pound fixture.

Alberni's Jerry Diddier will meet St. Louis College's Brian O'Hara in another 70-pound bout.

To round out the card, two other yet unmatched bouts will be added to the card.

Tickets for this inter-city fight card may be obtained at Victoria Sporting Goods on Yates Street.

# Home Season Ends On Frantic Note Tonight

## Complete Sellout for Third Game of Finals

Hockey tickets went like hotcakes at a logger's convention Tuesday night, but it's all over for another year. Tonight's the final game of the Pacific Coast Hockey League season for Victoria fans.

## ROCKS CHANGE DEFENSE LINE

While the Victoria Shamrocks are certain to be hard hit by the loss of defenseman Red McMillan since his auto accident, they are taking steps to make up for his loss.

McMillan paired with Len Scott on one defensive duo last year while Arnie Ferguson and Norm Coates made up the other pair.

Manager Ralph Baker announced that with McMillan out, either Tommy Druce or Norm Baker, rovers, would drop back with Scott to make up the two units this season.

## Overtime Goal Gives Hornets Series Edge

By The Canadian Press

Pittsburgh Hornets today held a commanding lead in their battle with Providence Reds for the championship of the American Hockey League but it took a goal at 18:40 of sudden-death overtime to place them in their advantageous position.

The Hornets now lead the best-of-seven series for the Calder Cup 3-1. The score in Tuesday night's game was 3-2.

It was Rudy Migay who gave victory to the Hornets after the two teams had ended regulation time tied 1-1. During the first 10-minute overtime session, Jean-Paul Denis scored for the Reds and Bob Solinger for the Hornets to force the sudden-death overtime.

Migay's game-winning, which moved the series back to Pittsburgh for a fifth game Thursday night, was a 10-foot angle shot.

During the 10-minute overtime play, Migay set up Solinger for a 25-foot goal about five minutes after Denis polished off a three-man rush to put the Reds into a 2-1 lead.

The early stages of the lengthy game were rough and 17 penalties were imposed during the first two periods.

**Minor Hockey Bunfeed Set**

Any players or parents planning on attending the Victoria Minor Hockey Association annual banquet at Lougheed's Hall, next Wednesday night at 7, are requested to get in touch with the supervisors as soon as possible.

Division supervisors are: Jim Nicol, junior, B445; Charlie Goldring, juvenile, E5090; George Donaldson, midge, B6870; Laurie Perlette, bantam, E9574, and Jack Chesman, pee wee, E4833.

**Junior Habs Edge Guelph In Comeback**

MONTREAL, April 16 (CP)—The wizardry of goalie Charlie Hodge and a third-period goal by Don Marshall Tuesday night gave Montreal's junior Canadiens a new lease on life in their quest for the Memorial Cup.

It was this combination that gave the junior Habs a 1-0 decision over the highly-rated Guelph Biltmores Tuesday night and enhanced their chances of victory when the best-of-seven series resumes in Toronto Friday night.

Guelph now leads the eastern Canadian final 3-2.

The puck-wisdom, heavier Guelph team outshot the Montrealers in all three periods, the number of shots hurled at Hodge in the second period—16—being almost as many as stopped by goalie Marv Brewer of Guelph in the entire game—17.

Hodge had a busy night stopping and kicking out pucks from all angles.

At 4:04 of the last period, defenseman Ray Leacock carried the puck down and shot directly on the net. The puck bounced off a Guelph defenseman and Marshall was on it like a flash and slapped it past Brewer for what proved to be the deciding tally.

**HOCKEY SCORES**

A.H.L.—Pittsburgh 3, Providence 2 (Overtime). (Pittsburgh leads best-of-seven series, 3-1.)

ALLAN CUP—Western Canada Final: Edmonton Pats 1, Port Frances Canadiens 1. (Port Frances leads best-of-seven series, 2-1; one game tied.)

ALEXANDER CUP—Quebec 4, Chicoutimi 1. (Quebec wins best-of-nine series, 3-1.)

MEMORIAL CUP—Eastern Canada Final: Guelph 6, Montreal 1. (Guelph leads best-of-seven series, 3-2.)

WESTERN CANADA FINAL—Port William 2, Regina 5. (Best-of-seven series tied, 2-2.)

MANITOBA JUVENILE FINAL—St. Boniface 9, Min. Pion 3. (St. Boniface wins best-of-three series, 2-1.)

May 14—Vancouver City-Victoria, Brockton Point.

May 14—Vancouver City-Victoria, Brockton Point.

It's Saskatoon Quakers against Victoria Cougars in the third game of the best-of-seven series for the P.C.H.L. championships at Memorial Arena at 8:30.

They're all square—the Quakers and the Cougars.

Cougars won the opener here last night, with Roger Leger scoring the winning goal in the 4-3 verdict. Saskatoon bounced back Monday with a 3-1 decision.

**LEGER TO PLAY**

There was a possibility Tuesday night that the Cougars might have been forced to go into this game without Leger, but now it's nearly certain as can be that Leger will be in uniform tonight.

Leger proved allergic to penicillin when treated Tuesday for the deep gash he received in Monday's game and spent most of the day in bed. Leger was injured by Bill Heid's skate in a mix-up near the Saskatoon net.

Club physician R. J. Wride said today he felt Leger would be fit and ready for the game.

On the player front, Jack McIntyre replaces Leon Bouchard and will see front line duty with Joe Evans and Eddie Dorohoy.

The Quaker line-up will remain the same, Johnny Chad being the only casualty. However, Chad's injured groin has responded to rest and he will take his regular turn.

Members of the Quakers spent a quiet day Tuesday—some going fishing, others seeing the sights.

**CONCLUDE SET**

Following tonight's game the teams travel to Saskatoon where the series will be concluded with games Saturday and Monday. If other contests are necessary, they will be played Wednesday and Thursday of next week.

Vital to both teams, tonight's game will be a complete sellout, all tickets going over the counter in less than two hours Tuesday night. Some 200 unfortunate fans were left standing in line when the wicket closed.

**Three Games On Minor Soccer Slate**

Action in the Lower Island Junior and Juvenile Football Association this week-end will be confined to two league games and one exhibition contest. All other divisions with the exception of the third division and the juniors have completed league and cup play.

On Saturday, James Bay Merchants and Eagles will clash in a third division fixture at lower Beacon Hill at 1, while Mac Mac's of the fourth division will meet fifth division Eagles in an exhibition game at upper Beacon Hill.

Heavies will travel to Duncan to meet the Cowichan Braves in a junior division contest on Sunday.

**RAIN CUTS ATTENDANCE AT OPENERS**

NEW YORK, April 16 (UP)—Rain, which caused postponement of two games, cut baseball's 1952 opening day attendance to 143,068—nearly 30,000 under the 171,678 drawn by last season's openers.

But actually, Tuesday's six openers drew a better average attendance than last year's first games. This year's average crowd was 23,845 while the average crowd at each 1951 opener was 21,466.

At Yankees-Athletics game at Philadelphia with its predicted crowd of 25,000 and the Phillies-Giants game at New York with its estimated attendance of 32,500 were washed out by rain.

A total of 94,018 attended the three American League openers, while 49,051 watched the three National League openers.

The largest crowd of the day, 43,112, watched the Browns-Tigers game at Detroit. Only 4,694, smallest crowd of the day, attended the Dodgers-Braves game at Boston.

**ROBINSON 3-1 FAVORITE**

**Huge Crowd Expected For Middleweight Tiff**

CHICAGO, April 16 (AP)—More than 12,000 fans, well-eyed with anticipation of a bloody brawl, will pack Chicago Stadium tonight to watch reckless Rocky Graziano try to blast the middleweight crown off Sugar Ray Robinson.

If there are any late arrivals the scrap may be over before they see it. That also goes for millions of television viewers and radio listeners throughout the country.

It will be wise to tune in on time for this one.

At 10 p.m. (E.S.T.), the vaunting Graziano, his steaming right cocked for an opening, will start bulling his way in toward Robinson, the masterful stylist with lightning in each fist.

Most observers think the clash won't go more than eight rounds of the scheduled 15. Robinson is a 3-to-1 favorite and odds are even that he will score a knockout inside eight heats.

Robinson wears 11 inches of hemstitching around his eye from gashes opened by Randy Turpin when he lost his middleweight

10 Victoria Daily Times WEDNESDAY, APRIL 16, 1952

## BASE HIT FAMINE

## Tossers Tough On Opening Day

NEW YORK, April 16 (UP)—Don't worry about the lively ball, it is just as full of zip as ever, only this year it may be doing tricks for the pitchers instead of the hitters.

The ball dipped, danced, curved, swooshed, and generally baffled the batters on opening day as the pitchers took over and put on a terrific show. There was a three-hit shutout, a six-hit shutout, three other six-hit pitching jobs and a seven-hitter, while home runs and extra base hits were at a minimum.

**PARNELL HOT**

Mel Parnell, the lean lefty of the Red Sox, had a particularly lively ball with which he mystified the Senators, 3 to 0, for a three-hit triumph before President Truman at Washington. He beat the Nats for the 16th straight time. His showing was just a shade better than that of Ned Garver of the Browns who pitched a six-hit, 3 to 0 triumph over the Tigers at Detroit, striking out nine batters and walking only one. Early Wynn had it all the way over the White Sox in Chicago where he pitched a six-hit, 3 to 2 victory against lefty Bill Pierce, who also yielded only six hits.

In the National League, Preacher Roe edged Warren Spahn as the Dodgers topped the Braves, 3 to 2, at Boston on a seven hitter in a fine duel of lefthanders. The Cubs defeated the Reds, 6 to 5, at Cincinnati in 10 innings, and the Pirates, 3 to 2, in the season's first game at St. Louis.

**CHAMPS SIDELINED**

There might be significance, too, in the fact that both pre-season pennant favorites, the Indians and Dodgers, got off to winning starts while last year's champs, the Yankees and Giants, sat on the sidelines as their games were rained out. The Yankees game was postponed in Philadelphia while the Giants were rained out in the Polo Grounds against the Phils.

But the big show of the day was put on by Parnell. No Washington runner got past second and he never had two runners on base at once. Wait Dropo drove in the two runs he needed for victory with a 400-foot double in the sixth. Ted Williams hit a triple in the eighth and Faye Throneberry, the hot Red Sox rookie, drove in the final run with a fly. Bob Porterfield, in defeat, yielded only five hits before elderly Bobo Newsom came on in the ninth and gave the Red Sox their final safety.

Garver had to go good to top Dizzy Trout of the Tigers, who also was a six-hit loser. Nitty Ned also contributed to his cause with a run-scoring single.

Wynn, given a 3 to 0 lead, coasted to victory. The Indians tapped Pierce for a run in the fourth on a walk and Jim Hegan's double. The other tallies came on three singles in the seventh by Hegan, Harry Simpson and Larry Doby, interspersed with sacrifices by Wynn and Bob Avila. Sherman Lollar hit a Chicago homer.

Roe yielded an early homer to Sam Jethroe but the Dodgers whizzed back in front to stay with three runs in the fifth, two on a single by Roy Campanella. Roe held Boston hitless for the last four innings.

**ROBINSON 3-1 FAVORITE**

**Huge Crowd Expected For Middleweight Tiff**

CHICAGO, April 16 (AP)—More than 12,000 fans, well-eyed with anticipation of a bloody brawl, will pack Chicago Stadium tonight to watch reckless Rocky Graziano try to blast the middleweight crown off Sugar Ray Robinson.

If there are any late arrivals the scrap may be over before they see it. That also goes for millions of television viewers and radio listeners throughout the country.

It will be wise to tune in on time for this one.

At 10 p.m. (E.S.T.), the vaunting Graziano, his steaming right cocked for an opening, will start bulling his way in toward Robinson, the masterful stylist with lightning in each fist.

Most observers think the clash won't go more than eight rounds of the scheduled 15. Robinson is a 3-to-1 favorite and odds are even that he will score a knockout inside eight heats.

Robinson wears 11 inches of hemstitching around his eye from gashes opened by Randy Turpin when he lost his middleweight

title to the Briton and won it back in a rematch last fall.

Apply in Person**JOE FOSTER**AND SON LIMITED  
Corner Johnson and Quadra**Perfect Existing Organizations Before Trying  
To Undertake 'Federation of Nations'—Pearson**

PRINCETON, N.J., April 16 (CP).—Canada's External Affairs Minister Pearson believes the West should work to perfect existing international organizations before undertaking any such far-reaching steps as a federation of nations.

In an address at Princeton University Tuesday night, the minister, who is chairman of the North Atlantic Council, said the safeguarding of democracy may eventually "require some form of federalism on a regional or even a wider basis."

But, meanwhile, the West has to work "with the institutions which exist today and attempt to adapt them for the more ready and efficient and equitable solution of our current problems."

This was a necessary task and insisted demands for something more far-reaching "may at times be an obstacle to its accomplishment."

In a lengthy speech in which he reviewed the organization of such international bodies as the United Nations and the N.A.T.O. organization, Mr. Pearson made these other points:

1. Nationalism which has brought the emergence of new independent states could not and should not be stopped. It must "presumably run its course before the opposite trend towards closer international political association can make general headway."

2. Until the United Nations can "function more effectively," N.A.T.O. remains the most important international instrument for defense of the free world and the preservation of peace.

3. Any central political authority for N.A.T.O., as proposed by some, might mean in practice that it would be dominated by its three largest members, or even by its largest.

4. Despite the impatience expressed in some quarters, developments in the field of European

international organization have been "made which would have been unthinkable 20 years ago. The European defense organization under Gen. Eisenhower was one example of this."

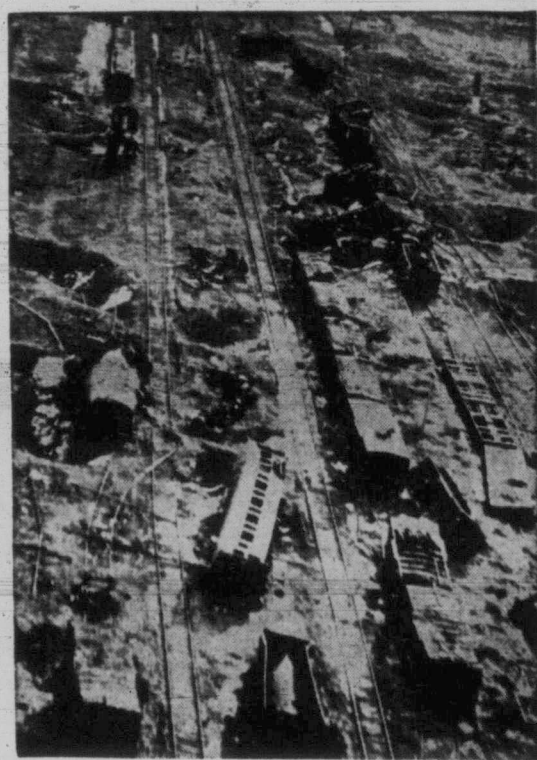

Mr. Pearson said surrender of national sovereignty was still the biggest question in any political tieup of states. In N.A.T.O. arrangements for collective defense sovereignty has not been ignored but national policies have been modified and co-ordinated to achieve a common purpose.

"The 14 nations of N.A.T.O. are becoming a team for purposes of defense and not 14 individual players," he said. "This is a recognition of the truth that in the free world the independent sovereign state is no longer clothed with effective power for external defense."

"N.A.T.O. we hope and believe, can clothe itself with such power precisely because the members of N.A.T.O. are not abandoning sovereignty but interpreting it in accordance with the facts of life."

**Armed Peasants  
Seize Tlalixtla**

OAXACA, Mexico, April 16 (AP).—Federal troops were sent to outlying Tlalixtla Monday to drive out armed peasants who seized the village six miles from here. The troops have been patrolling here since civil resistance broke out three weeks ago against the state government. Both military leaders and local hospitals refused to say whether there were any dead or wounded in the encounter Monday.

**Bombs Punctuate Peace Talks**

While truce talks drag on, U.S. Air Force pilots have been working on the railroad as damage to this North Korean supply train attests. (NEA telephoto.)

**Floods Unlikely**

BOSTON, April 16 (AP).—Government meteorologists say serious floods in New England are unlikely despite the heavy winter snowfall and recent rains. Portland, Me., weather officials said the Saco, Androscoggin, Kennebec and Penobscot rivers are "not even close" to flood conditions.

**Way Clear for  
Nursing Home  
Wing Decision**

City Council can make a decision now on whether it wishes to take part in the plan for a new \$450,000 wing to Victoria Nursing Home, in the opinion of City Solicitor Arthur Patton.

In a letter to the mayor and council Tuesday, he said he was waiting to discuss with the Attorney-General revision of certain portions of the Hospitals' Act.

Patton felt it undesirable for the city to conclude arrangements regarding the city's \$350,000 share, should it take part, before "all doubts as to the status of the proposed institution have been removed," however.

He believed the "doubts" would be removed, and felt in the meantime the city could make a decision on participation.

Patton offered no opinion as to the economic merits of the venture, as he felt that was a matter for council to decide.

**Naval Vets Seek  
Novels, Games  
For Destroyers**

Naval Veterans' Branch of the Canadian Legion is on a drive to gather 1,000 pocketbooks, novels, playing cards, games of various sorts and phonograph records.

The women's auxiliary of the local branch wants to stock up outgoing ships to Korea with plenty of reading material for their voyage overseas.

The auxiliary members hope citizens will make donations as soon as possible as they want to stock H.M.C.S. Crusader.

Donations can be left at the club quarters, 1417 Broad. Large bundles will be picked up if donors telephone G 6714.

**NEW green toothpaste with  
miracle chlorophyll!**

GIVES  
YOU A

**Clean Fresh Mouth**  
not for minutes... but ALL DAY LONG!

This revolutionary new green chlorophyll toothpaste DESTROYS MOUTH ODOR instantly... makes possible complete all-day protection. Use it after every meal! Fights tooth decay, combats common gum trouble.

AT LAST—chlorophyll in a toothpaste! It's the green substance in all plants with which they convert lifeless chemicals and sunlight into life-giving nourishment. When you brush your teeth with new Chlorodent Toothpaste, this natural agent performs a miracle in your mouth!

Chlorodent doesn't just cover up mouth odor, but DESTROYS it. By using this toothpaste regularly—preferably after meals—you can have a clean, fresh mouth all day long!

**Complete Mouth Care**

At the same time, Chlorodent fights tooth decay and relieves common gum disorders. It cleans teeth beautifully and puts lasting sparkle in your smile by promoting the hygiene which is the foundation of beautiful teeth. And children love its cool, minty flavor.

Get Chlorodent at any drug counter. Ask your dentist or see for yourself why it's winning friends faster than any other toothpaste ever offered to the Canadian public!

THAT COOL, FRESH GREEN comes from chlorophyll, greatest deodorizing substance ever discovered. It explains Chlorodent's long-lasting clean, fresh feeling.

Now science proves Chlorodent stops MOUTH ODOR for hours!

The scientific odor-measuring osmometer was recently used to test Chlorodent's effectiveness. All of the men and women tested had bad breath. Yet 2 hours after brushing teeth with Chlorodent Toothpaste, the breath was still fresh and clean in 98% of the cases! At the end of the tests—4 hours later—3 out of 4 were still completely free of bad breath.

NOW strike at the very causes of tooth decay!

First, Chlorodent greatly reduces the mouth acids that "eat" into tooth enamel. Second, it helps combat the bacteria which cause these acids. Finally, it keeps your teeth so clean that bacteria find it difficult to multiply on them. No toothpaste has ever offered better protection.

Half of all tooth losses caused by GUM TROUBLES!

It's a fact! An estimated 50% of all tooth loss can be traced to conditions which start with sore, bleeding gums. Chlorodent promotes the growth of firm, healthy pink tissue. If you are troubled with tender gums, you will want to use Chlorodent for its fast relief of this condition alone.

**WHAT IS CHLOROPHYLL?**

Chlorophyll is the magic green substance in all growing things, which transforms the sun's energy into life-giving nourishment. Dentists use chlorophyll preparations as a deodorant, and as an aid in the repair of tender gums.

Chlorodent brings you chlorophyll's\* wonder-working properties in a dentifrice!

\*Water-soluble chlorophyllins

LEARN HOW WONDERFUL YOUR MOUTH CAN FEEL WHEN IT'S REALLY CLEAN!

"Chlorodent is the answer to bad breath. It makes my mouth feel so clean and fresh that I know my breath is not offensive. And my children just love Chlorodent's flavor."

"Chlorodent takes away the stale and flat taste of tobacco and keeps my mouth so clean and fresh. When I use Chlorodent toothpaste I can be sure my breath is clean, too."

"Chlorodent toothpaste leaves my mouth refreshed and it whitens teeth more than any other toothpaste I have tried. Chlorodent's green color appeals to children."

## BETWEEN TIMES

By MONTE ROBERTS

George E. Bonner of Cobble Hill has come up with a highly profound observation on the current political scene, with reference to the new system of alternative voting.

Says Mr. Bonner: "It is a happy time for the politically-minded man. He can now belong to, and work for, all political parties, because he will be able to vote for all four."

"He can work for Liberals Monday, P.C.'s Tuesday, C.C.F. Wednesday, Social Credit Thursday, himself on Friday, and still have Saturday and Sunday off."

"He can also sit on both sides of the political fence, as well as at the top and bottom."

In short, he can stand four square, facing north, south, east, and west, ready to mount his horse and ride madly off in all directions.

"What more can a man ask?"

One advantage of alternative voting is the delay between closing of the polls and announcement of the winners.

This will give all candidates several extra hours in which to claim victory.

Also, it will give the actual winners a breathing spell before they start dodging people coming around to collect on campaign promises.

Caddy is living up to his early promise (as published exclusively in this corner) to stick around and do his best for the tourist season.

He faked his death for the Vancouver papers Monday, thus gaining front page headlines (it's the only way Caddy can break past that jealous barrier guarding the Vancouver papers).

Naturally, he wasn't worried, because he knew the Victoria papers would bring him to life again on Tuesday.

For your information, he is now lurking in a dark, cool cave, thinking up a stunt to get him on the front pages of the California papers.

A tough assignment, but I have every faith in Caddy. He'll make it, somehow, even if he has to go against his gentle nature and attack somebody.

A prominent U.S. psychologist and a female at that, name of Dr. Jean MacFarlane—has put in 24 years of study, and come up with the conclusion that little girls learn to lie more quickly than little boys.

For that it took 24 years?

Congratulations to A & A Chimney Service, 1437 Vining, and to George Zukowsky, 52 Sims, who maintained their first and last positions, respectively, in the April, 1952, issue of the Victoria phone book.

A man named Shake in New Zealand recently wrote the provincial government here, stating that he had heard of a man also named Shake who used to live on the Stikine River, and please, could they find out if he was any relation?

After due deliberation archivist Willard Ireland wrote back and said no, he didn't think so, unless the New Zealand Shake had some North American Indian blood.

Turns out that "Shake" is a name given to all chiefs of a certain tribe.

Wanda the waitress says it's easy to have a sweet disposition, as long as you have plenty of sugar.

## TOPICS OF THE TIMES

John Chamberlain, 222 St. Charles, and Lee Sing, a Chinese of Blair Avenue, were each fined \$35 in city police court today for careless driving offenses. Chamberlain pleaded guilty. Lee pleaded not guilty. In both cases Magistrate H. C. Hall said he would make a recommendation to the B.C. Motor Vehicle Branch for suspension of license.

City police rushed five-year-old Terry Currie, 204 Memorial Crescent, to St. Joseph's Hospital on Tuesday after the youngster suffered a severe thumb cut. He was treated and released.

Eight-year-old Stanley Ford, 3161 Quadra, received a bruised hip Tuesday when he was struck by a car at Quadra and Tolmie Tuesday. Robert I. Ross, 1509 Shasta Place, police report, was the driver.

A car which struck a power pole on Fernwood near Pandora Tuesday night received medium damage but the driver, Leonard W. Cockerill, 1140 Union Avenue, escaped injury.

Mary Sorboe, 2747 Asquith, was fined \$15 and \$2.50 costs in city police court today for making false statements to secure unemployment insurance benefits.

Arthur William King, bell ringer at Christ Church Cathedral, died in Veterans' Hospital Tuesday.

A veteran of the 56th New Brunswick Battalion, C.E.F., he is survived by a sister, Mrs. G. N. Evans of Victoria.

Funeral services will be held in the Thomson Funeral Home on Friday, and interment will follow in the Veterans' Cemetery, Esquimalt.

Funeral services were held Tuesday for Charles R. Prior, 70, of 2250 Central Avenue, who died here April 10.

Vancouver-Quadra Lodge No. 2, A.F. and A.M., attended in a body and acted as pallbearers. Rev. O. L. Jull officiated at Hayward's Chapel and cremation followed at Royal Oak.

Four will appear on the final program.

There is a distinct possibility that Victoria's young singing star, Jock Dunbar, may yet appear in the finals of the "Singing Stars of Tomorrow" Dominion network radio program.

Jock Dunbar has been "invited" to remain in Toronto for the hour-long broadcast on Sunday. This may mean that he has won a spot in the finals.

Program officials won't comment on the possibility, but they admit the last three semi-finalists have been invited to stay over for Sunday's broadcast from Toronto's Massey Hall, with all expenses paid.

In a telegram to his recent bride, the former Joan Fenwick, which was delivered Tuesday, Dunbar mentions that he has been asked to stay for the finals but doesn't clarify the situation.

Word has been received of the recent death of Mrs. Amy McIntosh, widow of Robert McIntosh, Mr. McIntosh and his wife settled in Prince Rupert in 1909, among the first pioneers of the city. He later became the first postmaster of Prince Rupert.

Mrs. McIntosh will be mourned by a large circle of friends here.

Mrs. Tindall, an eye-witness of the tragic July 25 Sooke highway accident which resulted in the death of Mrs. Victor W. Jopp, said she was walking on the road when she heard Baillie's car approaching.

"I heard the whining sound of an engine," she said. "I got well off the road. I saw headlights and a car pass me; then a crash down the road. Mr. Baillie's car swung around across the road."

Mrs. Tindall said the car that passed her was "going very fast."

Under cross-examination by George Gregory, defense counsel, Mrs. Tindall was asked if she did not remember testifying at the preliminary inquiry that the car that passed her was going "50 miles an hour."

Mrs. Tindall said she did remember saying something to that effect.

Earlier, Victor W. Jopp, Luxton Road, described the pride to the car crash which resulted in the death of his wife.

He said the last words his wife uttered were, "He's going to run into us." He did not remember anything after that.

Jopp said he and his wife were in the back seat of an automobile driven by his son-in-law, Herbert Bing, Luxton Road, at the time of the crash.

The case is continuing.

The case is continuing.

Agriculture Minister Harry Bowman was unanimously nominated last night as the Liberal candidate for Fort George in the June 12 provincial election.

Mr. Bowman has represented the constituency in the Legislature since 1949.

Mr. Bowman has represented the constituency in the Legislature since 1949.

Mr. Bowman has represented the constituency in the Legislature since 1949.

Mr. Bowman has represented the constituency in the Legislature since 1949.

VICTORIA, B.C., WEDNESDAY, APRIL 16, 1952

17

## 21-Day Term For Chronic Violations

A young motorist, who was said to have ignored motor vehicle laws of the province with frequency, got a 21-day jail term in city police court today.

He is Roy Johnson, 102 Dallas Road, charged with driving a vehicle while his license was suspended. Johnson was arrested Tuesday by city police traffic investigators.

Gordon Poupore, acting prosecutor, told Magistrate H. C. Hall that this was the fourth charge since Johnson's license suspension and that last March the accused served a seven-day jail term for the same offense—driving without it.

The prosecutor also pointed out that this was the 10th charge against Johnson under the Motor Vehicle Act in a year.

Without any comment, Magistrate Hall ordered "21 days in jail."

## CITY SEEKING REASONS FOR TRANSIT BOOST

City of Victoria wants "reasons for judgment" from the Public Utilities Commission in the recent approval of the transit increase application by the B.C. Electric Railway Co.

Mayor Claude Harrison today supported the stand taken by council's public works committee.

The committee authorized City Solicitor Arthur Patton to ask the commission for its reasons.

Mr. Patton proposed the move, stating that if the city wanted to appeal the P.U.C. decision before the courts it would have to have the reasons for judgment.

## Witness Says Accused's Car Traveled Fast

Evidence was given today by Mrs. Wilda Tindall, Colwood, at the manslaughter trial of Carl H. Baillie, 730 Vancouver Street, that the Baillie car was travelling "at least" 60 miles an hour on the Sooke highway near Colwood corner.

Mrs. Tindall, an eye-witness of the tragic July 25 Sooke highway accident which resulted in the death of Mrs. Victor W. Jopp, said she was walking on the road when she heard Baillie's car approaching.

"I heard the whining sound of an engine," she said. "I got well off the road. I saw headlights and a car pass me; then a crash down the road. Mr. Baillie's car swung around across the road."

Mrs. Tindall said the car that passed her was "going very fast."

Under cross-examination by George Gregory, defense counsel, Mrs. Tindall was asked if she did not remember testifying at the preliminary inquiry that the car that passed her was going "50 miles an hour."

Mrs. Tindall said she did remember saying something to that effect.

Earlier, Victor W. Jopp, Luxton Road, described the pride to the car crash which resulted in the death of his wife.

He said the last words his wife uttered were, "He's going to run into us." He did not remember anything after that.

Jopp said he and his wife were in the back seat of an automobile driven by his son-in-law, Herbert Bing, Luxton Road, at the time of the crash.

Sample of Alpine Flowers' Beauty Here

Hundreds of beautiful rock plants are now on display at the annual two-day show of the Vancouver Island Rock and Alpine Garden Society which opened today at the Crystal Garden.

The show, open until 10 tonight, will close at 9.30 p.m. Thursday. Judging of the exhibits will take place today. Shown here are (left) Lisa and Vicky Husband, examining a rare auricula plant.

## Saanich Youths Missing Since First of Week

Two boys are being sought by police of the Greater Victoria area since their disappearance Monday from their Saanich homes.

They had \$8 between them when they left.

Saanich police say they are Ralph Gibbons, 13, of 2950 Doncaster, and Jimmy Appleby, 14, of 1309 Simon Road.

Gibbons is described as five feet six inches in height, 130 pounds, wearing blue jeans, a blue plaid shirt, wine bomber jacket and running shoes.

Appleby, five feet six inches, 130 pounds, was wearing blue jeans, a dark blue jacket and brown oxfords when last seen.

Anyone seeing these two youths is asked to communicate with any police force in the Greater Victoria area immediately.

Police say this is the first time the boys have ever been reported missing.

## POLICE WAGE RISE MAY COST \$40,000

Victoria police commission Tuesday approved a wage increase for the police department that is expected to cost the taxpayer an extra \$40,000 this year.

Commission chairman Mayor Claude L. Harrison said the pay increase, coupled with other pay raises for city employees, will add about \$40,000 to the city's 1952 budget for 1952.

The boost for the police department works out to about 28 cents an hour and is retroactive to Jan. 1. It is based on the salary of a first-class police constable which will now be \$298.60 a month.

The pay range works from a high of \$360 for a detective sergeant to a low of \$232 for a probationary constable. It is now in line with the increase granted members of the fire department.

City council last week approved a 17% increase for 95 firemen. The police pay increase affects 85 members of the department.

The union certainly acted in good faith... it was a gentleman's agreement that it didn't press for wage increases before the firemen," the mayor observed.

Commissioner Murdoch said: "I think it is a policy the whole city should adopt."

Commissioners also approved a union request that pay in lieu of time off be given police when circumstances warranted calling out the whole department for duty, such as May 24 celebrations, riots or other emergencies.

Total estimates for the department, including the wage increase and costs of operating the court, are set at about \$433,029 for 1952.

# Norris Drops Buttle Fight

## Single Argument Heard At Long-Awaited Appeal

Long-awaited resumption of the Buttle Lake appeal set for 10 a.m. today was a fizzle. Built up as a full-scale legal battle that would go for days, it was over in less than an hour.

Reason for the short session was that three of the four lawyers expected to argue against authorization of the British Columbia Power Commission to dam the Up Island lake stayed away altogether.

Only appellant heard today was Deputy Attorney-General Eric Pepler, representing the Provincial Game Commission, who made only two minor points in his 20-minute submission.

Counsel who stayed away from the hearing were T. G. Norris, Q.C., who from the start of the Buttle battle has represented the British Columbia Natural Resources Conservation League, the Strathcona Park Association and Virginia Moore; H. J. Sedgwick, retained by the British Columbia Fish and Game Association, and Alex B. MacQuarrie, representing the Auto Court and Resort Association of British Columbia.

He contended artificial restocking of lakes would not be such a widespread practice if results were not reasonably satisfactory.

With regard to wildlife, he submitted greater damage would be done to feeding grounds by flooding Upper Campbell Lake, suggested an alternate site for the power commission's project.

Lands Minister Kenney, at the end of the one-hour hearing, served notice that he would require time before bringing down judgment on the case.

Decision, he said, would be given "in due course."

## SWEET-VOICED SCALPER ASKS PROFIT ON DUCATS

What price hockey tickets? The hockey ticket situation for tonight's playoff between Saskatoon Quakers and Victoria Cougars hit a new twist today.

A sweet young voice on the telephone said to the Times: "I've got two tickets for tonight's hockey game, but I can't go. My father gave them to me. They're good seats—\$2 seats."

"Would you like us to get rid of them for you," an eager Times beaver, and hockey fan replied. "I know somebody who wants 'em."

"They won't go for any small price," sweetly answered the caller.

"Oh!" was the beaver's reply; "Sorry, but we can't help you in that case."

"All right," replied the voice. Sorry, no telephone number.

## CONFUSION REIGNS

### Royal Birthday Ceremonies Set for Different Dates

Canadian and United Kingdom troops will pay respects to Queen Elizabeth with 21-gun salutes to mark her birthday—but on different dates.

From Victoria to Newfoundland, in Germany and Korea Canadian artillery pieces will thunder salutes June 9.

Though the Queen was born April 21, official celebrations will be held June 9 by Canadian forces.

Throughout the United Kingdom and among British troops abroad, however, June 5 will mark the Royal birthday. It is expected that Canadian troops of the 27th Brigade in Germany, a part of the British Army of the Rhine, will also join in these celebrations.

A four-gun crew is expected to fire birthday salvo at the saluting base, Work Point Barracks.

## DRIVERS MISTAKE CAR; Hockey Fever Blamed

Hockey fever confused an 18-year-old motorist Tuesday.

After buying his tickets, he and a companion walked out of Home Furniture on Fort Street and drove away in someone else's car.

They returned it in a few minutes to find the registered owner, Victor Peddle, 3770 Craigmill, puzzled and apprehensive.

The pair found their own car a similar English model—and drove off again.

Mr. Peddle was still puzzled.

Wolf Cubs Make Most of Easter Holiday With Outdoor Hike

Sure sign of spring is the sight of little boys off for tramp in woods. Seen above are members of Elks' Own Wolf Cub troop, "A" and "B" packs, from Kings Road Hall, marching off to spend a day in the country. They

carried same kind of sandwiches they take to school, but today they had special spice and tang that only holidays, fresh air and healthy young appetites can give.

# Alternative Vote Will Delay Election Results Three Weeks Unless Majorities Made on First Count

(This article on the alternative or preferential voting system to be used for the first time in a B.C. election on June 12 is the last of three by The Times' legislative reporter.)

By GORDON FORBES

Will British Columbia's new alternative voting system have the desired effect?

That question is on thousands of minds today as the province prepares for a general election. Thinking British Columbians are wondering if alternative voting will prevent the election of minority choices for which it is designed.

Nobody can answer the question at this time, and that is why

the coming election will be one of the most interesting in the province's history.

Alternative voting is used in Alberta and Manitoba, but true comparative results cannot be drawn because B.C.'s system differs slightly from the other two provinces.

LOOK AT ALBERTA

However, a study of Alberta results is interesting. It shows that many voters in

## Feline Friend Disrupts Office During His Visit

By PENNY SAVER

I'm finding it awfully hard to concentrate on writing my column today.

We had an unexpected visitor at the office this morning. He happens to be a cat, but nevertheless he is a visitor.

He strolled nonchalantly in, jumped on my lap and sat there for a while. He is now sitting on the edge of my desk, his tiny paws curled over the edge and his eyes glued to the typewriter.

He is really the cutest thing. Every time I move the carriage back his eyes follow it from side to side. If one didn't know better you'd think he was reading what I was saying about him.

It's fantastic! He seems fascinated with the clicking of the typewriter keys. Every once in a while he gently places a paw on the keys to see how they work for him. Of course this holds up production so I have to politely put him back in his place.

I did this once too often, I'm afraid. He didn't like it at all. It broke the spell. He turned his back on me, moved to the middle of my desk and plunked himself down, pushing papers out of the way with his hind feet as he sprawled, full length, across the desk. His chin is resting on the paste pot and the back of his head is wedged against the stapler, but he seems quite happy now.

Now and then he raises his head and looks sleepily at me to make sure I'm still clicking away at the keys.

He's dozing off to sleep, so I'll take a few minutes to tell you about another miracle cleaner I've found.

It seems that there are always a lot of cleaners on the market for this and that, but I never seem to be able to find anything that is specifically recommended for copper and stainless steel.

That is, I hadn't until now.

There is a cleaner that does wonders for these finishes. It cleans quickly and easily—costs 98 pennies.

Whoops! My little "feline friend" is awake again. He's mad about something. His tail is swishing all over the place and papers are flying from the top of my desk.

That does it! Out he goes!

It's very nice to have a pet at home, but when they start disrupting an office, that's too much!

## WHY GROW OLD?

By JOSEPHINE LOWMAN

## Now You Can Estimate The Calories You Need

Yesterday I told you what a calorie is—a unit for measuring the energy which food releases in the body. Once you understand that you are ready to decide how many calories you need in order to lose or gain weight or to maintain the weight you have.

You can do this by experimentation. If you wish to gain weight add five hundred calories to your usual diet. If you have not gained, add a couple more hundred calories daily. When the scales begin to show a gain you will have discovered the number you require.

On the other hand, if you are too fat and wish to lose, cut five hundred a day off your usual food intake. If you fail to show a loss at the end of a week, cut lower.

The number of calories you need has been scientifically computed, however.

For the sedentary group the daily calorie needs per pound of body weight are: Boys, 20; girls, 18; men and women, 16.

With the above scale you can calculate what your daily calorie intake should be if you lead a sedentary life.

Now comes the problem of deciding whether you are sedentary. The majority of you fall into this class. In this group we find those who are not especially active physically—the white-collar and professional workers and those women with one child and a small house to care for.

Doctor Leventon rates you as moderately active if you are a mechanic, carpenter, postman, bus or truck driver, gardener, farmer during times of light work, an active doctor, a waitress, cook, factory worker, janitress, girl student active in sports or a homemaker with at least two children and doing your own housework. The moderately active group needs the following number of calories per pound of body weight—boys, 27; girls, 22; men and women, 20.

If you are a farmer in the busiest season, a miner, logger, longshoreman, or a student in competitive sports such as track, basketball or football, and practicing several hours a day, or a homemaker who is doing all the housework for a large family on a farm, and taking care of the garden and chickens, you fall into the very active group and require 35 calories per pound of body weight if you are a boy—26 if you are a girl—29 if you are a man, and 24 if you are a woman.

## Former Victorian Married

At St. George's United Church, Vancouver, Joan M. Cockburn, daughter of Major and Mrs. J. M. Cockburn, formerly of Victoria, became the bride of Maurice G. Bonnett, son of Mr. and Mrs. M. C. Bonnett of Killam, Alta. Rev. Ralph Hardy officiated.

Given in marriage by her father, the bride wore a white satin gown with lace bodice and lace panels in the train-length skirt. She carried a bouquet of red roses and stephanotis.

Miss Enid Sowerby of New Westminster, maid of honor, wore yellow nylon marquisette over taffeta and carried mauve carnations. Miss Marjorie Smith, bridesmaid, was in mauve nylon marquisette over taffeta and carried yellow carnations.

Mr. Robert Hinchcliffe, the groom's uncle, was best man and Stanley Chatwin and Alan Reilly ushered.

At the reception, Mr. and Mrs. Bonnett, Sr., assisted the bride and groom receive the guests, and Capt. E. A. Lower of Victoria proposed the toast. The out-of-town guests were Capt. and Mrs. E. Lower, Mrs. G. Williamson, Mrs. L. Hall and Mrs. I. Catterall, all of Victoria.

For a honeymoon to Portland, the bride wore a two-piece chartruse woolen suit with grey topcoat and navy hat.

## Amazing New Liquid-Creme Rouge Does Away With Pale, Tired Look!

Now—HOW CAN HE RESIST YOU!

EVERY MAN is attracted to a girl whose face glows with soft, natural color. So, don't let a pale, tired complexion handicap you. Today, discover how this amazing new beauty miracle makes you look more attractive, younger... instantly.

## New Beauty Aid Revolutionizes Make-up

By Betty Ness

How often have you turned to look at a woman whose face seemed to glow with soft, radiant color? How often have you wished you too could have her youthful charm—her interesting personality?

Here's good news! Now you can stop wishing, and start enjoying the fresh, vibrant, complexion-color of your dreams.

Yes, instantly—you can transform the palest, most tired-looking complexion into one which glows with new radiance—one that makes all your friends exclaim, "You've never looked so wonderful!"

The secret is Hazel Bishop's "Complexion Glow." Unlike tell-tale rouges, this smooth creme-color blends so perfectly and naturally with any skin tone that nobody suspects your new radiance is not your very own. It never cakes or streaks.

As a beauty editor, I've used practically every kind of cosmetic—from 10¢ to \$25. But take it from me, no beauty aid I've ever used did so much for

my appearance... my morale. I'm sure you're going to have the same thrilling experience.

Last year when Hazel Bishop introduced the first long-lasting No-Smear Lipstick, I predicted she would revolutionize the cosmetic world. I predict "Complexion Glow" will do the same.

But nothing can convince you as much as an actual trial. And I urge you to do so as soon as you can. I promise you'll be everlastingly grateful.

"Unbelievable, But True," says *Grateful Thousands*.

Mrs. T. N. K., Detroit—"For years I've been reading about that 'schoolgirl complexion.' Now at last, I've really got it—thanks to 'Complexion Glow.' It looks so very natural that my husband says I look ten years younger."

Miss R. G. L., New York Secretary—"After working all day at the office, I used to look so pale and tired—I didn't even feel like going out in the evening. Then the girl at my beauty shop told me about 'Complexion Glow.' P.S. My fiancé says I look so wonderful he's fallen in love with me all over again!"

Mrs. V. N., Los Angeles, Calif.—"I never use rouge because it makes a woman look hard. But after 25, a woman definitely needs color on her cheeks. And 'Complexion Glow' gives it—without that painted look."

## Never Before Such "Raves" From Beauty Editors

Philadelphia, Pa.—"Beauty begins with your complexion! If your cheeks lack color—you just can't look as attractive as you deserve. But I'm not suggesting old-fashioned rouges.

There's an entirely new kind of beauty aid at your cosmetic counter, superior to old-fashioned rouges. It's a creme that blends beautifully, naturally with any skin tone. It's called 'Complexion Glow'.

New York, N.Y.—"If you can take a vacation whenever you want, you probably don't need to worry about your complexion. But if you're like me—indoors most of the time, then 'Complexion Glow' is just what you need to put a healthy-looking glow on your cheeks."

San Francisco, Cal.—"The most startling feature is that Hazel Bishop's 'Complexion Glow' is not a cake rouge... but a creme; that it blends with any skin type... looks completely natural. And immediately transforms a 'humdrum', indoor look to a complexion that glows with youthful beauty."

Chicago, Ill.—"Exciting news to women of all ages is Hazel Bishop 'Complexion Glow.' Unlike old-fashioned rouges, it looks completely life-like. Everybody will compliment you on your new complexion beauty... but nobody can tell it's not natural!"

Dallas, Tex.—"No matter how tired you may feel, there's no longer any reason to look that way! Now—an amazing new complexion discovery puts a rosy bloom on your cheeks. When you look so fresh and vibrant, you feel that way, too!"

► You must be thrilled with results, or your money back!

DOES SO MUCH—COSTS SO LITTLE

A drop of Hazel Bishop "Complexion Glow" on each cheek is all you need to give your face fresh, natural-looking color. It's the final touch to perfect grooming.

## Bridal Shower at Colwood

Mrs. F. J. Acres, Colwood, entertained at a bridal shower recently, to honor Mrs. H. W. Kerr, the former Muriel Ellen Gummerson. Corsages were presented to the bride, her mother, Mrs. W. Gibson, and the groom's sister, Miss D. Kerr. Many gifts were presented in a decorated Easter basket by little Linda Diane Acres. Invited guests included Mesdames R. B. Murray, K. Houlihan, J. Hopwood, J. Jameson, B. W. Parker, A. Shea, E. Bray, S. Lang, H. Ridley, C. Casey, D. McLennan, S. Kenwood, E. C. Parker, F. Jenkins, R. Ridley, A. Parker, S. Vallis, E. Emery, A. Murray, H. Ridley Jr., Misses L. Murray, H. Vallis and B. Peatt.

## Speaker Honored at Tea

Executive members of the Women's Canadian Club entertained at the tea hour in the Empress Hotel, Tuesday, to honor the speaker, Mr. Peter Stursberg, following the meeting in the Crystal Ballroom. Special guests with Mr. Stursberg were his mother, Mrs. W. A. Stursberg, Mr. and Mrs. Stuart Keate, Miss Kathleen Agnew, Mrs. E. P. Laycock and Mrs. D. Matheson. Mrs. E. Crummy and Mrs. Bruce Hutchinson presided at the tea table and other members of the executive present were Mrs. W. H. Wilson, Mrs. E. S. Farr, Mrs. V. L. Annett, Mrs. F. T. Fairley, Mrs. E. E. Ljesev, Mrs. J. L. Muirhead, Mrs. A. C. Pollard and Mrs. R. T. Wallace.

## Recent Luncheon Party

Mrs. Alex Gillespie entertained at a luncheon in the Union Club Tuesday to honor Mrs. Forbes Sayward-Wilson, a former Victorian, now living in England, and at present visiting in Victoria. Covers were laid for eight.

## Tea-Hour Hostess

Mrs. T. H. Johns entertained during the tea hour yesterday afternoon in her Sonoma Drive home to honor Mrs. O. T. Dean, Calgary, who is visiting in the city. Mrs. H. R. Turner presided at the tea table. Guests numbered 35.

## Annual Firemen's Ball

Firemen's Benevolent Association will hold their annual ball in the Empress Hotel, May 2, with Charlie Hunt's orchestra in attendance. Alec McAllister, president, and Gray Russell, secretary, are being assisted by George Kulai, Bill Jackman, Jack Wormald, Bill Jones, Bert Cox, Whitney Severson and Ray Campbell.

## Pre-Nuptial Parties

Miss Sylvia Southin, whose marriage to Lloyd Davies takes place May 9, was honored when her future mother-in-law, Mrs. Ben Davies, Uplands Road, entertained relatives and members of the bridal party. Mrs. F. J. Sinnott presided at the tea table and assisting with serving were Miss Anne Dick and Miss Patsy Ruth Sinnott.

Miss Sinnott, bridesmaid for Miss Southin, entertained at the home of her parents, Deeren Place. Rooms were decorated with a profusion of plum blossoms and Easter lilies. Corsages were presented to the guest of honor, her mother, Mrs. Harry Southin, to the groom-elect's mother, Mrs. Davies, and his grandmothers, Mrs. Fred Spencer and Mrs. C. Davies. Many gifts were concealed in a treasure chest.

Those present were Mrs. D. Jameson, Mrs. W. Southin, Mrs. P. Sinnott, Mrs. A. Young, Mrs. M. Young, Mrs. R. Lipsey, Mrs. S. Murphy, Mrs. J. Dick, Mrs. H. Husband, Mrs. C. McCormack, Mrs. S. Miles, Mrs. J. Neary, Mrs. J. Burridge, Mrs. A. Pendray, Mrs. G. L. Chatterton, Miss V. Neary, Miss A. Dick, Miss L. Miles, Miss E. Miles, Miss M. Pendray and Miss P. Pendray.

## At Saturday's Primrose Tea

Miss Sara Spencer, Miss Kathleen Agnew, Mrs. W. A. McElmoye, Mrs. R. J. Wride, Mrs. R. W. Mayhew and Mrs. W. G. Wilson have been invited to preside at the Primrose Tea, sponsored by the Women's Committee of the Victoria Symphony Society at Oak Bay Beach Hotel, on Saturday afternoon, from 3 to 5.

Assisting as serviettes will be Mrs. A. Baker, Mrs. W. A. Stenner, Mrs. G. M. Terry, Mrs. Eliza Mayhew, Mrs. G. Abernethy, Mrs. E. Goodall, Mrs. C. Campbell, Mrs. H. Gilliland. Door tickets will be in charge of Miss Audrey Miller, Miss Lottie Kaiser, Mrs. C. LeVre and Mrs. A. Hendry.

Among those who plan to attend are Mrs. W. Gilmore, Mrs. A. Cowie, Mrs. S. Moore, Mrs. R. Newell, Mrs. L. Acres, Mrs. W. Clar, Mrs. F. B. McLeod, Mrs. H. R. Turner, Mrs. K. Boorman, Mrs. G. Boves, Mrs. J. Abel, Miss Eve Wilson, Mrs. John Hedley, Mrs. M. Hedley, Mrs. E. A. Walls, Mrs. J. N. Fraser, Mrs. W. Erb, Mrs. Betty Bleakney, Mrs. E. C. Lewis, Mrs. H. Haynes, Mrs. L. Hardie, Mrs. H. Farquhar, Mrs. H. Hickman and Mrs. H. Johns.

Co-conveners of the affair are Mrs. W. Clayards and Miss Marianne Fraser.

At a christening service in St. John's Anglican Church Sunday afternoon the 21-month-old son of Mr. and Mrs. C. R. Beatty, Langford, received the names Richard Clive, Canon C. W. Downer officiated. Maternal grandmother is Mrs. R. Greenwood, Vancouver, and paternal grandparents are Mr. and Mrs. John Beatty, Helston, Man. Godparents are Mr. and Mrs. C. H. Range and Mr. Eric Butler. Following the ceremony a tea was held at the Montrose Avenue home of Mrs. A. Petch. Guests numbered 14.

## Married in St. Mary's

A gown of traditional ivory satin was worn by Kathleen Mary Coombs when she exchanged vows with Gordon Henry Harris at a recent ceremony in St. Mary's Church, Oak Bay. Archdeacon A. E. de L. Nunns officiated.

Paul Jonas gave the bride in marriage. Her satin gown was accented with a peplum of white tulle. A fingertip-length veil of tulle misted from a fitted cap of white satin, and she carried a prayer book topped with an arrangement of yellow rosebuds.

Miss Jessie Marschuck, the bride's only attendant, wore a pale green tulle dress with a dark green velvet bolero and a matching tulle cap touched with a circlet of flowers. She carried a bouquet of yellow and red tulips.

The groom is with the Canadian Scottish Regiment (Princess Mary's). He and his best man, A. H. Rabey, and the ushers were in uniform. Upon leaving for her honeymoon in California, the bride donned a blue tricotie tulle with navy and white accessories complemented with a corsage of yellow rosebuds.

## NEW ARRIVALS IN

... you, these new suits will mean a lot to your summer wardrobe ... you'll know them by their gentle lines ... and pretty detailing ... They're so new you'll want two!

## Victorian Married in Penticton

A recent spring nuptial service in Penticton United Church united Dorothy May Harris, daughter of Mr. and Mrs. Gordon Harris, Penticton, and Kenneth William Mitchell, Oliver, son of Mr. and Mrs. William Classe Mitchell, Victoria. S. Sands officiated and Mrs. Monica Craig-Fisher played organ music.

The bride's gown was white tulle with full net overskirts of blue violet, pink violet and white. Her shoulder-length veil was caught with white violets. Her bouquet of white tulips was accented with pink tulips and violets.

Matron of honor, Mrs. S. B. Boyle, Vancouver, chose a gown of yellow eyelet, with yellow tulle bolero complemented with a bouquet of yellow and white iris. Flower girl, Anne Sampson, Penticton, wore a frock of spring green organza with a coronet of flowers in her hair. She carried a basket of mixed flowers.

Cleve Stemmark, Duncan, was best man and ushers were Doug Leaske, Oliver, and Charlie Carter, Penticton.

A three-tier cake topped with spring flowers centred the bride's table at the reception in the home of her parents. The table was covered with white linen and Irish lace cloth, work and gift of the bride's mother's grandmother at time of her own wedding. A. S. Hayfield, Penticton, proposed the toast to the bride.

For her honeymoon on this Coast the bride wore a blue knitted suit topped with a winter-white coat with blue and black accessories. The newlyweds will live in Oliver.

**Summer Party**—At recent meeting of Grafton Women's Institute plans were made and, it was announced, much sewing is already done for the annual garden party being held in July. Mrs. J. Cameron was chosen delegate. A large parcel of used toys, Christmas cards, candy, paste and books was sent to the Indian Children's Hospital in Nanaimo.

**Tolmie—Movies** will be shown at meeting of Tolmie P.T.A. Monday at 8 in school auditorium.

## Military Wedding in May

Major and Mrs. E. T. Harris, announce the engagement of their daughter, Maureen Nisbet Harris, to Arthur Howard Rabey, son of Mr. and Mrs. P. G. Rabey. The wedding will take place May 16 at 8 p.m. in St. Andrew's Presbyterian Church with Rev. J. L. W. McLean officiating. It will be a military wedding as the groom is a lieutenant in Canadian Scottish Regt. (Princess Mary's). Miss Avery Chater and Miss Nancy Chater will be bridesmaids.

## United Nations a Bulwark Speaker Tells Ladies' Club

Peter Stursberg, newspaper reporter, war correspondent, radio commentator and recently C.B.C. representative with United Nations made an earnest plea for U.N. support when he spoke to Women's Canadian Club in the Empress Hotel, Tuesday afternoon.

"As long as the U.N. functions," he said, "we have a hope for peace."

"It is the only place where all sides can meet in this divided world and our best and safest weapon is that it continues as such a meeting place when there is threat of war as there is now."

The speaker gave a description of the set-up of the Paris Assembly, which he attended, explaining there had been "much clarity but no understanding" in the deliberations.

"Because the small powers feel that the four great powers have a tendency to run things, they did not speak out in sessions as they should and in many instances abstained from voting."

The greatest achievement of the assembly was establishment of the disarmament commission, Mr. Stursberg said.

"This does not mean immediate disarmament," he warned, "for it is merely a commission. But it is a step in the right direction."

He pointed out, however, that the assembly had accomplished much indirectly through the meeting of representatives of so many countries.

"They met in the corridors," he explained, "rubbed shoulders at the dinner tables, talked informally behind the scenes."

"It is in this way that the greatest decisions for the good of the world sometimes are made."

Diplomacy and conciliation can accomplish much, he continued, and it is at such meetings, where representatives of smaller powers have an opportunity, if they wish, to argue, talk and some-

## Spring Flowers Prominent At April Nuptial Service

Daffodils, lilies with pink and white snapdragons decorated the Victoria Truth Centre recently when Mrs. Emma Smiley heard the nuptial vows of Anne Norma Giddy, daughter of Mr. and Mrs. Charles Giddy, Fernwood Road, and Arthur William Turner, son of Mrs. Arthur Turner, Wishart Road.

Mrs. G. Clark played wedding music as the bride walked up the aisle on the arm of her father. A bouquet of red roses and white hyacinths enhanced the

wedding gown fashioned in white lace and tulle. A three-quarter length veil of illusion silk cascaded from a tulle tiara.

Mrs. Mervin Hayward, Penticton, sister of the bride, was matron of honor. She was gowned in mauve tulle and tulle with a headpiece of mauve stocks. She carried a cascade bouquet of large deep yellow carnations and mauve stocks.

Bridesmaid Miss Lorna Edwards wore a gown of champagne lace styled similarly to the matron of honor's.

George Harper was best man, and Charles Giddy, brother of the bride, was usher.

Wild lilies decorated the bride's table at the reception in Lough- eed's hall. It was centred with a three-tier cake topped with a ring and a bride's slipper. Mrs. Smiley proposed the toast.

For a honeymoon in Vancouver and Seattle the bride wore a navy coat-dress with pink accessories and a corsage of pink roses.

## CLUB CALENDAR

Lions Auxiliary, luncheon meeting at Sirocco, Friday at 12. Guest speaker, Mr. Art Stott; subject, "20 Years in Newspaper Work."

## CLUB WOMEN'S NEWS

**Plan Tea** — Members of the Collette Club, St. Andrew's and Caledonian Society, met recently at the home of Anna Gunniss. Plans were completed for annual spring tea, Saturday, in K. of P. Hall. Next meeting will be at the home of Pat Stone, April 24.

**Card Party** — A successful bridge and canasta party was held in the Business and Professional Women's Clubroom by members of the Lions Auxiliary. Guests were welcomed by the president, Mrs. E. B. Hackett. Mrs. P. W. Gilson, convener, was assisted by Mesdames R. J. Fansett, J. Bryant, J. B. Priestley and G. Hinch.

**Candidate Speaks** — Wing Cmdr. Cecil Holmes, candidate for Saanich, presented plans for his campaign at meeting of Saanich Peninsula Women's Progressive Conservative Association, held recently. Guest speaker was Air Marshal Sir Philip C. Livingston, his topic "Healthy Conservation of the Beauty of Vancouver Island" and "Defense and Liquor Laws."

**Tea and Sale** — Members of the guild, St. David's-by-the-Sea, met at home of Mrs. C. Hill, Walema Avenue, to make plans for tea and sale on St. George's Day, April 23. It was proposed to sell home-made delicacies and other home cooking. Mrs. Hill, assisted by Mrs. A. Taylor, served tea. Next meeting will be held at home of Mrs. G. Rickard, Gordon Road, May 13.

**Vancouver Visitor** — Provincial president, Mrs. J. M. Boyer, Vancouver, was guest speaker at a recent meeting of Rockland Park Central W.C.T.U. groups. She sounded a note of encouragement and appreciation of the educational work which the organization is attempting on the evils of liquor which often result in death, broken homes and sorrow. Mrs. N. Phillips, Rockland Park Union, presided, and Mrs. N. Nobden led in devotionals. "Mary at the Tomb" was read by Mrs. F. S. Dearborn and Mrs. Nobden sang "I Walk With a King." Refreshments were served by the hostess, Mrs. R. J. Dymond.

**Guest Speaker** — Dr. Olga Jardine was guest speaker at thankoffering meeting of Metropolitan United Church Missionary Society held recently. Dr. Jardine, Canadian representative to World Conference of Y.W.C.A., held at Lebanon, brought an interesting and instructive picture of the countries and people with whom she had been associated. Miss Gladys Beale, W.M.S. president, conducted devotionals and short business session. Mrs. Jackman sang two solos accompanied by Mrs. Harman. Offering was taken by Mrs. Brown and Mrs. P. Bewell. At the social hour Dr. Jardine displayed pictures of Lebanon and work of various points.

**Easter Party** — At a recent meeting of Pro Patria Ladies Auxiliary, No. 31, B.E.S.L., it was decided to give children of the Protestant Orphanage an Easter party on Wednesday. Chosen to attend B.C. women's provincial convention at Nelson in June, were Mrs. A. E. MacDonald, president, and Mrs. D. Muir, secretary, who will act as standard bearer.

**Women's Union**, First Baptist Church, Thursday at 8, lower auditorium. M. L. Vaness, city psychologist, lead a discussion on "Family Circle."

## TODAY'S RECIPE

### NECTAR GRAPEFRUIT SALAD

One and one-half cups apricot whole fruit nectar, ¼ cup grapefruit juice, 1 package lemon-flavored gelatin, ¼ teaspoon salt, 1 cup diced grapefruit, ¼ cup shredded blanched almonds, salad greens for garnish, sour cream dressing.

Heat nectar and grapefruit juice to boiling. Dissolve gelatin and salt in it. Chill until thick but not firm. Whip until light and frothy. Fold in grapefruit and almonds. Pour into a mold or pan and chill until firm. Unmold and serve on garnished salad plates. Top with sour cream dressing.

## New Panel-Front

4572 by Anna Adams

Sew this! So useful! A style adaptable to many kinds of fabrics. In cottons it goes to market, to neighborhood doings. In rayons it goes to club meetings and teas. Dependable, smart, ever-suitable classic! You'll wear it all summer!

Pattern 4572: Misses' sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3½ yards of 35-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions. Send 35 cents in coins (stamps cannot be accepted) for this pattern. Print plainly size, name, address, style number.

Send order to Anna Adams, care of the Times, Pattern Dept., 60 Front St. W., Toronto 1-A, Ont.

Sir Matthew Baillie Begbie Chapter, I.O.D.E., spring tea, Thursday afternoon at headquarters. Stalls of home cooking, plants, superfluities.

## Health Nursing Program Urged by Local Council

At meeting of Local-Council of Women Monday afternoon in the Y.W.C.A., a resolution was passed urging the Provincial Council to make the necessary presentation to the provincial cabinet to provide a demonstration area for research in the provision of a completely generalized health nursing program, including bed-side care, home-maker's service, and consultant social case-workers' service.

## Orphanage Linen Shower

May 1 has been chosen as date for the annual linen shower for the B.C. Protestant Orphanage. The affair will be held at the Home, Cook and Hillside Avenue. Afternoon tea will be served from 3 until 5 and donations of cash and linens will be received.

Those attending will be received by Mrs. Walter Luney, president of the women's board and will be shown through the establishment, where 37 children are being cared for at present. A program of choruses by children of the orphanage will be presented by Mrs. O. M. Brown.

The matron, Mrs. J. Barner, has suggested for the benefit of those who may wish to make donations that terry cloth hand towels and sheets are much needed.

**Address** — At recent meeting of Fairfield Women's Missionary Society, Mrs. D. A. Girvin gave an address on "Experience of God in Life." Mrs. W. R. Williams presided and Mrs. W. Allen gave devotionals. Mrs. Willard Ireland gave a solo and the meeting closed with Misspath Benediction. Mrs. W. Allen's Circle served refreshments.

Christ Church Cathedral, parish guild, Friday afternoon at 2:30. . . . Semi-annual social gathering, C.P.R. Veterans' Association and ladies, Crystal Garden banquet hall, Friday at 2. Refreshments. Interesting program, pictures and music.

## Blossom Tea Thursday

Royal-Club of Mizpah Court No. 2, Order of the Amaranth, will hold a Blossom Tea in the Douglas Room, Hudson's Bay Company, Thursday, from 2:30 to 4:30. A mystery stall will be a highlight of the occasion.

Silver Stars group of Metropolitan Church Women's Auxiliary, will hold a tea April 19 from 2:30 to 5 at home of Mrs. O. H. Lamont, 2700 Dewdney Avenue.

Plans were discussed for tea to be held in June.

Miss Ethel Bruce presided.

MADE AND GUARANTEED BY THE MILLERS OF ROBIN HOOD FLOUR

Here's sauce for the goose AND the gander.

SAYS: Saucy Sue

A delicious sauce that coaxes the last tiny measure of fine flavour from every morsel of food you serve. Here's the key to greater mealtime enjoyment... a flavour secret that will keep your family and guests singing your praises as the cook with the flavour knack. Try HP Sauce today... in the kitchen and on the table.

FOR FLAVOUR WITH ZEST — HP IS BEST!

First in FLAVOUR. An unusual flavour... often improved, never equalled. A delightful blend of fruit and spices that actually results in a fruity flavour with a tang... the distinctive flavour of HP Sauce.

First in ECONOMY. Lower cost meals... particularly soups, fish or cold cuts... take on exciting new flavours and become wholesomely attractive when you add just a few drops of delicious HP Sauce from the large 8½ oz. bottle.

First in POPULARITY. A welcome mealtime companion at tables throughout the world, HP Sauce is also a familiar sight for the thousands of flavour-wise cooks. Wherever good food is prepared and appreciated, you'll find HP in demand.

## Esquimalt to Consider Estimates

Esquimalt Council will hold a special meeting next Monday at 7 p.m. to consider estimates for year and to reach a decision on whether to float a money loan by law to provide for major public works.

The special meeting was suggested by Reeve A. C. Wurtele at

the regular council meeting on Tuesday night.

Council decided then to stand by past policy and refused a grant to the Canadian National Institute for the Blind.

Council will notify the institute that it endorses its work but that it cannot donate money out of the

municipal treasury when residents contribute directly to this agency through the Community Chest.

Council refused to consider a suggestion from the Greater Victoria School Board that it maintain a lane which the board intends to put through to Esquimalt High School from Lampson Street.

Attitude of council was that if the board wants the lane badly enough to make it, it must keep it open.

Council authorized works superintendent Ed Fulcher and municipal clerk-treasurer J. W. Allan to attend the annual conference of the Municipal Officers' Association of B.C. to be held in Victoria June 19 and 20.

## Former Mayor Jailed for Life

MANILA, April 16 (AP)—The former mayor of Pandi, Bulacan Province, and his chief of police Wednesday were convicted of rebellion, murder and arson and sentenced to life imprisonment.

The former mayor, Matias Salvador, and the former police chief, Crispin Santamaria, also were fined \$5,000 each and ordered to indemnify heirs of seven persons killed in a Communist Huk raid.

## ABBOTT TELLS OF TAX CUT SHARING WOES

Maintains Reduction Was About 6 Per Cent

OTTAWA, April 16 (CP)—Finance Minister Abbott said Tuesday night the "big question" facing him in drafting his recent budget was how to spread a tax cut of about \$120,000,000 "among the various groups of taxes and taxpayers."

"We gave this a lot of careful thought, and our final decision was to take about \$40,000,000 off the income tax and about \$80,000,000 off the taxes on commodities," he said.

His speech was prepared for broadcast on a national network in the C.B.C.'s series, "The Nation's Business."

He explained the income tax changes this way:

"You will remember that a year ago Parliament placed a 20-per-cent surcharge on all income taxes, but said that this was to go into effect only on July 1. Then last Autumn, in order to provide for old-age pensions, Parliament imposed an additional 2-per-cent tax on all incomes, but said that this would not start to be collected until next July.

"This means that under the present law everybody's income tax would be very much higher in 1952 than in 1951. What I have recommended in the budget is that the 1952 income tax be reduced—not below what you paid last year—but below what the present law requires you to pay this year.

### GIVES EXAMPLE

"Let me give one typical example of a married man with two young children, earning \$35-\$60 a week. As the law now stands, a married man with two young children and an income of \$35-\$60 a week would pay in the full year beginning July 1 when the old-age pension levy starts, about \$133. But, with the changes I have recommended, he will pay \$125, or \$8 less.

"This is a reduction of about six per cent no matter what you may hear to the contrary from those who wish to confuse you. This reduction accounts for the \$40,000,000 which has been taken off the income tax, including the old-age pension levy."

Mr. Abbott recalled that in the fiscal year ended March 31 the government had a surplus of \$356,000,000. In his budget speech a year ago, he had forecast a surplus of only \$30,000,000.

### NO SURPLUS PLANNED

"I estimate that if we made no change in our tax laws we would have a surplus of \$125,000,000 this coming year," he said in his radio speech.

"The government does not think it is necessary to plan for a surplus under present conditions, and that means that we can afford to reduce taxes by about \$120,000,000. This is not a big tax cut—but it is a reduction of about three per cent in the total tax burden."

He added: "I hope that before too long the international situation will make it possible to make some bigger tax reductions than we have been able to make this year."

## Casualty List Reports 1 Man Dead, 5 Injured

OTTAWA, April 16 (CP)—The army, in the 104th casualty list of the Korean War, Tuesday reported one man killed in action and five wounded.

It raised total casualties in Korea to 767, including 141 dead, 560 wounded, 61 injured, four missing and one prisoner.

Killed in action was Lieut. James Douglas, 1st Battalion, Princess Patricia's Canadian Light Infantry, Saskatoon.

Wounded were Pte. Richard Earl Brown, 1st Battalion, Princess Patricia's Canadian Light Infantry, Ridgeway, Ont.; Pte. Thomas Malcolm Burch, 2nd Battalion, Royal Canadian Regiment; Pte. Joseph Jean Lepage, 2nd Battalion, Royal 22nd Regiment; Pte. Bernard Harold Smith, 2nd Battalion, Royal Canadian Regiment; and Lieut. Thomas Robert Webb, 2nd Battalion, Royal 22nd Regiment.

## Revolt Brings Exile's Return

LA PAZ, Bolivia, April 16 (CP)—Victor Estenssoro, idol of Bolivia's tin miners, returned from exile Tuesday in a country still reeling from the bloody revolution his followers staged to vault him to power.

Thousands of Bolivians cheered wildly as the 42-year-old National Revolutionary Party (M.N.R.) leader flew in from Buenos Aires, where he has spent the last six years. Miners, Indians and white collar workers jammed El Alto Airport where his plane landed.

Paz Estenssoro was expected to get the presidency he almost won last May. He polled the largest vote in a field of six candidates, but failed to get a majority.

Siles Zuazo led the M.N.R.-backed revolt last week which toppled Gen. Hugo Ballivan's junta. The death toll of the revolt is estimated as high as 3,000.

## PRAIRIE ROUND-UP

## Sask. Sanatoria Use New Drug With Success

REGINA, April 16 (CP)—Satisfactory results from initial use in Saskatchewan sanatoria of the new anti-tuberculosis drug isoni-cotinic acid hydrazide were reported Tuesday by Dr. John Orr, general superintendent of the Saskatchewan Anti-Tuberculosis League.

Dr. Orr said the drug has been used to a limited extent in Saskatchewan since April 3. It now is being used to treat five patients at Fort San.

One patient has shown spectacular response to treatment, he said, and the others are progressing satisfactorily.

Dr. Orr said there is not enough of the drug available yet for wide-scale treatment. It kills bacteria while other drugs in common use retard the growth of bacteria.

Immediate result of treatment by the new drug is that many lose fever and cough, gain weight and are generally better. The amount of sputum decreases in many patients. But Dr. Orr said not enough time has elapsed to permit a positive statement regarding the complete elimination of bacteria from the sputum.

## 200 Affected

REGINA, April 16 (CP)—A Saskatchewan cabinet minister estimated Tuesday that more than 200 Saskatchewan residents will be deprived of all or part of their livelihood by construction of the huge \$14,000,000 R.C.A.F. bombing and guided missile range in northern Saskatchewan and Alberta.

Resources Minister J. H. Brockelbank made the estimate following a survey of the area by resources department field officers. He said Ottawa estimates of the number to be affected were "inclined to be low" and quoted one figure given as "six farmers and a few trappers."

The bombing range, on which

## Unique China On Show Here Worth \$6,000

For the tidy sum of \$498 plus tax you can have your hamburger and coffee on the gold-encrusted plate, with cup and saucer to match, now on display in Eaton's china department.

The three items are from the only set of its kind, which consists of 12 plates, 12 cups and 12 saucers. The complete set is valued at \$6,000.

Emerson Nichols, honorary curator of ceramics at the University of Western Ontario and representative of a major china-ware firm, brought the china here.

It went on display in the Government and View Street show window of T. Eaton & Co. today.

Nichols said the type of work was no longer being done by British art craftsmen because of cost in workers' health. Fluoric acid used in etching the ornate design was injurious to those handling it.

## "Monthly Pains" Halted

or strikingly relieved in 3 out of 4 cases in test by doctors! Chances are you're putting up—unnecessarily—with the functionally-caused pains, cramps and weak, "no good" feelings of menstruation!

For, in actual tests by doctors, Lydia Pinkham's Compound brought complete or striking relief from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is modern in its action! One Lydia E. Pinkham's Vegetable Compound—or new, Improved Tablets and see if you don't get relief... see if you don't feel better during your period. See if you don't have the same experience as thousands who have benefited!

And remember—Lydia Pinkham's is grand for those "hot flashes" and other distresses of change of life!

As pure as soap can be

## SOCIAL CREDIT

PUBLIC MEETING

WEDNESDAY, APRIL 16, 8 P.M.

SPEAKER: REV. E. G. HANSELL, M.P.  
National President Social Credit

NAVAL VETERANS' HALL

1417 Broad St.

EVERYONE WELCOME

Each night the Smiths renew a toast, "To this we owe so much," they boast And this is what they really mean: They wake refreshed with OVALTINE

PLAIN OR CHOCOLATE-FLAVOURED  
TWO SIZES  
At your drug or food store

When you've had a good night's sleep, you're ready for whatever the day may bring. Try a cup of hot Ovaltine every night at bedtime. It's a famous aid to relaxation, easing you into sound, restful, natural sleep. Ovaltine also supplies essential food elements while you rest, helping you to awake refreshed and full of vigour.

Ovaltine beverage made with milk, offers plus values in essential food elements. High quality proteins; calcium and phosphorus to help maintain normal bones and teeth; carbohydrates for energy; available iron to help maintain good red blood; and the essential vitamins A, B1, C, D, Riboflavin (B2) and Nicotin, all so necessary for good health!

No Stone Left  
For Couple's  
Anniversaries

They have run out of monetary metal and precious stones with which to commemorate the wedding anniversaries of Mr. and Mrs. W. L. Keene, 441 Lampon Street.

Their silver and gold anniversaries are far in the past; even their diamond celebration is but a memory.

Mr. and Mrs. Keene will commemorate the 68th year of their marriage today.

They will do so quietly, entertaining a few relatives and friends at tea.

They are both 93, and pioneer residents of British Columbia. In 1887, they built the first home in North Vancouver. They have been in Victoria for the past 18 months, and prior to that lived in Comox for 15 years.

Firemen's Pay  
Up in Oak Bay

A majority award by a conciliation board handed down Tuesday has given 19 Oak Bay firemen a 17 per cent increase in wages, it was reported today.

The board also awarded the firemen statutory holiday and service-stripe pay. In regard to the latter, firemen will receive 10 cents a day after serving five years with the department and the same added after each other five years of service.

Income Tax Field  
Closed to Cities  
Says C. C. Wyatt

It is unlikely that cities will ever again be permitted to collect tax on income, City Manager Cecil Wyatt told a meeting of the National Office Management Association in the Pacific Club Tuesday night.

He said taxing income was a fairer method than taxing property.

"Unfortunately the Dominion-Provincial tax agreement forbids this and I doubt whether municipalities, which once collected income taxes, will ever have this power again," Mr. Wyatt said during a talk on municipal management.

THE CORPORATION OF THE DISTRICT OF SAANICH

TENDER FOR  
AUTOMOBILE INSURANCE

Sealed tenders are invited for placing insurance on the automobile fleet and heavy equipment for the Corporation of the District of Saanich. List of vehicles and other information required may be obtained from the undersigned. Tenders to be marked "Insurance Tender" and to be received by 10 a.m. on Thursday, April 24, 1952, for the purchase from the City of the following used motorcycles:

1 1935 Harley-Davidson twin M/C  
1 1936 Harley-Davidson twin with side car  
1 1939 Harley-Davidson twin with side car

Machines can be seen at the City Garage, 600 Broadway, Victoria, B.C., and are to be sold for cash on an "as is" basis, in running condition, but without license.

Each tender must be accompanied by a certified deposit cheque equal to 10 per cent of the amount offered, made payable to the City Treasurer, and sealed in an envelope marked "Tender for Motorcycles."

The highest or any tender will not necessarily be accepted.

G. F. SHARPE, City Purchasing Agent.

April 15, 1952.

'Come to the Fair' Their Chorus

Many new and interesting exhibits are planned for the sixth annual B.C. Products, Industrial and Agricultural Fair to be held here at the Memorial Arena May 5-10. Shown above are fair committee members—all members of the Junior Chamber of Commerce. Left to right, back row are: Jack Neale, publicity; Ron Compton, finance; Peter Brown, program director; "Sandy" McDonald, weekly passes; Wilf Smith, photography display; Norm Messerschmidt, scrap book and photos; Norm Johnson, queen contest; Alf Evans, electrical. Front row: Lorraine Kirk, co-ordinator; Ira Hill, floor space; Stan Britt, chairman; Russ Potter, entertainment; and Vic Allen. Absent when picture was taken were Vince Butler, programs; Jim Nicol, construction; and Jerry Mark, prizes.

B.C. FLOOD SITUATION BEING WATCHED

VANCOUVER, April 16 (BUP)—The Federal Water Resources Division has reported in Vancouver that the next four to six weeks will be crucial for potential flood areas of British Columbia.

Heavy winter snowfalls will be melting on mountain ranges along the routes of the Fraser, Okanagan, Columbia and the lower Kootenay rivers.

The federal authorities predicted that if warm weather brings a steady runoff of low level snow, there will be little danger of serious flooding.

However, if hot weather is long delayed, the low level snow will melt with that at higher elevations and cause dangerous flood conditions.

The overall flood potential for this year in the province was described by forecasters as "spotty."

Snowpacks in the Columbia and lower Kootenay basins are heavy. The Fraser basin snowpack is above average. However, packs in the upper Kootenay, Similkameen and Skagit basins are below normal.

Conditions in the coast ranges are "variable," with snowfall above normal at Powell River and Stave Lake, but below normal at Seymour and Capilano.

However, the flood forecasters declared that the amount of mountain snow is not as important as the time and rate of runoff.

If there is cold weather until mid-May, all the snow will melt at the same time, and runoff could spread over low lands.

Under Repair  
At City Yard

C.P.R.'s coast-wandering freighter, Yukon Princess, is on the marine railway at V.M.D. on Bay Street plant for annual overhaul. The hard-working ship, which sails out of Vancouver for northern B.C. and Alaska, is getting minor propeller repairs as well as the standard "scrape-and-paint."

Also in V.M.D.'s hands for overhaul is Princess Elizabeth, which went into the government graving dock at Esquimalt this morning.

Hull work is near completion on the first of two minesweepers being built by V.M.D. for the Royal Canadian Navy, and launching of the ship, to be christened H.M.S.C. Comox, will take place at the Bay Street plant April 24.

Work on a destroyer escort is proceeding at the Outer Wharf plant of the same firm. No date has been set for the keel-laying, as large sections of the ship are being prefabricated, and the keel will not be laid until these are ready.

## VITAL DISCOVERY MAY HALT POLIO

20 Humans Eat Live Virus, Attain Immunity;  
Second Method To Be Tested on Child Group

By ALTON L. BLAKESLEE  
Associated Press Science Reporter

NEW YORK, April 16 (AP)—Twenty human volunteers have eaten live polio virus and thereby were made immune to it.

The virus had been treated beforehand to make it weak, with little or no risk that it could cause sickness. But the virus still could prompt human bodies to make antibodies or natural disease-fighters against it.

This experiment is reported in the American Journal of Hygiene by Drs. Hilary Koprowski, George Jervis and Thomas Norton of Lederle Laboratories, Pearl River, N.Y.

It shows that humans can get immunity to polio virus by taking it in food or drink. Whether this method can be made practical and safe for people generally is still not known, Lederle officials said.

Several types of virus were used. The humans became immune to the kind that they received, but not to other types. Three types of virus are known to cause human polio. A practical protection method would have to use weakened viruses of all three types.

The human tests were disclosed on the heels of another vital polio discovery, which will be tested this summer on children in hopes of preventing polio. The discovery is that the polio virus apparently gets into the blood first, before it enters the nerves and destroys them. And while the virus still is in the blood, it can be killed by giving antibodies.

This kind of prevention of polio has worked in monkeys and chimpanzees.

Next, children threatened by an epidemic will be given the antibodies to hit the virus before it makes them sick. Where or when the tests will come was not disclosed.

### FROM HUMAN BLOOD

The antibodies will come from human blood. Most people have had polio, without ever knowing it, and they made their own antibodies to destroy the virus. One substance in your blood carries these antibodies.

The new discoveries were reported to the Federation of American Societies for Experimental Biology by Dr. David Bodian of the Johns Hopkins University and Dr. Dorothy M. Horstmann of Yale.

Their findings in monkeys ap-

parently apply as well to humans. The monkeys got polio virus in their food—just as humans do. A week or two later, the virus was found in their blood, and it stayed there for a few days.

Later some monkeys got sick and became paralyzed when the virus left the blood and attacked nerves.

All the monkeys produced their own antibodies, but some apparently did not make enough, or did not make them soon enough. If the monkeys were first given an extra dose of antibodies, they did not get sick.

The hope is that such antibody shots would protect many humans in a polio epidemic. It might be a hard problem to get enough of the blood medicine, or to give it soon enough.

But there is another encouraging fact—that only a small dose of antibodies does the trick, Dr. Bodian said.

This brightens the hopes for a real vaccine. It means the vaccine probably could be a weak one, and still work. The vaccine consists of real polio virus, treated so it can't cause sickness but still able to make antibodies. Protection developed this way would last a life-time.

### Cyprus Communists Imprisoned, Fined

NICOSIA, Cyprus, April 16 (AP)—Three Communist leaders and 19 others were ordered Tuesday to pay fines or spend time in jail for taking part in demonstrations March 31. The demonstrations protested the execution in Athens of Nicholas Beloyannis, convicted Communist spy. An attempt was made to break into the Greek consulate.

## Wonderful Way EAST

GO VIA CALIFORNIA RETURN VIA NORTHERN ROUTE

Or reverse the direction. Either way it costs only a few dollars more than to go straight east and back.

This way doubles the variety and interest of your trip. You see San Francisco, Los Angeles, Palm Springs, Phoenix, Tucson and other cities you've heard so much about. Stopover anywhere.

Ride famous streamliners with all-room Pullmans and luxury chair cars, all the way. In planning your next trip East, investigate this remarkable travel bargain.

See your local railroad agent, or write K. B. Currie, Can. Gen. Agt., 618 Howe St., Vancouver, B.C., or C. G. Alton, G.A.P.D., 218 Vance Bldg., Seattle 1, Wash.

## Now It's Air Raid Alarm by Dial

NEW YORK, April 16 (AP)—A dial-operated air raid warning system by which the whole country could be alerted in two minutes was shown today to stockholders of the American Telephone and Telegraph Company.

Equipment for the automatic warning network was displayed

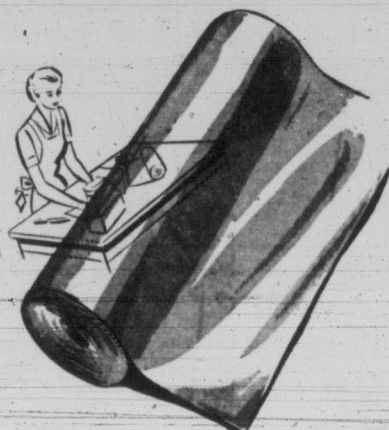

in an exhibit set up for the annual meeting of the firm, parent company of the giant Bell system.

The improved warning system was developed by Bell to enable civilian defense authorities to flash instantaneous warnings to vital installations around key points.

Heart of the system is a special device, with a dial similar to that of a telephone, making it possible to dial any one of three different types of alerts.

An estimated 382,000 babies were born in Canada in 1951, highest total in the country's history.

## \$9 Million Plan For Sport Centre

Horse Racing, Exhibition Ground, Ice Arena  
Envisioned in Project Backed by U.S. Interests

Two proposals for a race track and exhibition grounds are in the planning stage in Greater Victoria.

The first, and farthest advanced, would see such a project near Beaver Lake, Saanich. Dr. K. R. Darbyshire, well-known horseman and president of the B.C. Agricultural Association, is leading the drive for this scheme.

The second, very much in the preliminary stage, is planned for either the Portage Inlet or Esquimalt Lagoon area. An enormous project, it is estimated to cost \$9,000,000 and, in addition to three race tracks (two horse and one car) and exhibition buildings, would embrace botanical gardens, a zoo, an ice arena and many other recreational features.

Plans for the project are being drawn by the B.C. architectural firm of Sharp & Thompson, Berwick, Pratt and Charles E. Craig, which has a branch office in Victoria.

Dr. Darbyshire's project, which has the support of Sam Randall, B.C. racing mogul, would be erected on 100 acres of city-owned property along Beaver Lake, not far from the tea-room concession. The project would not be any closer than 300 feet to the lakeshore, and wouldn't interfere with swimming and eating facilities.

Dr. Darbyshire said plans have been framed to take care of sanitation problems. He said the project may contain a smaller car racing track.

### Discussed Project With City

Already, he has had preliminary discussions with city aldermen regarding the site.

In connection with the \$9,000,000 project for Portage Inlet or Esquimalt Lagoon, Charles E. Craig, a partner in the architectural firm negotiating the deal, stressed that "the whole thing is in the preliminary planning stage."

"If all parties can be brought together, the project can go ahead," said Craig.

"One opposing group could kill the whole project," said F. H. Heidner, a landscape architect with the firm.

They are planning meetings with Mayor Claude Harrison and the provincial cabinet to discuss the project.

Three other locations are being considered for the architects' project. They are Gordon Head, Burnside and the Highland Park area of Saanich.

But the Portage Inlet site is favored.

Craig and Heidner did not specify the financial backing for the project. They say "American and Canadian interests have asked them to prepare preliminary plans."

The architects' project would cover 200 acres in the vicinity of Helmecken Road and Portage Inlet if that site were selected. Part of Portage Inlet would be filled in to accommodate the race tracks and grandstand. Several houses would have to be moved, and considerable privately-owned land bought up. Zoning regulations also would enter the picture.

### Huge Inlet Plan Outlined

Here is an outline of the Portage Inlet project:

1. Twelve or more exhibition buildings covering 11 acres. These would include buildings for education, industry, home-crafts, machinery, livestock, horticulture, forestry, agriculture. They would be located in an area between Four Mile Hill and Portage Inlet.

2. A three-quarter-mile horse-racing track. Inside this track would be a five-eighths-mile car-racing track, and inside that a half-mile harness-racing track. Inside that would be polo grounds. The race tracks would be on a peninsula which juts out into Portage Inlet just on the town side of the Four Mile railway overpass and partly on reclaimed land.

3. A grandstand to accommodate 20,000 with a terrace in front for 5,000 more. The club-house would hold 1,000.

4. Stables to hold 1,500 horses. Facilities would be made available for spring training of horses.

5. A riding academy.

6. Botanical gardens.

7. "Theatre Under the Stars."

8. Aquatic club.

9. Zoo.

10. An ice arena.

11. Large recreation and sports grounds.

12. Picnic grounds.

13. An auditorium with a stage in the centre.

14. Yacht club.

15. Facilities for speedboat racing.

16. A swimming club.

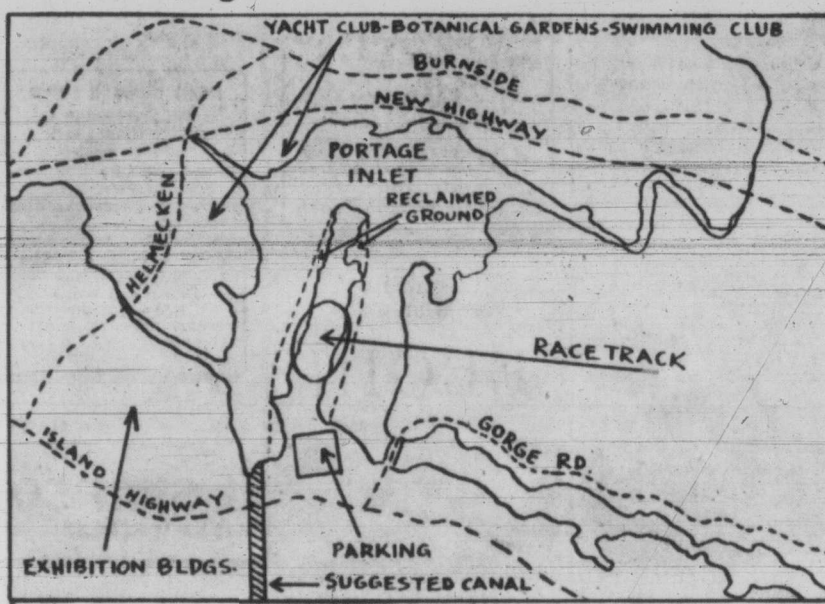

17. Horse show facilities.

Officials said the plan could be adapted to several different locations, but one suggestion is in the land between Helmecken Road and Portage Inlet, opposite Vickery Road.

Opposition to the Sharp and Thompson scheme developed immediately in the View Royal area, which would be directly affected.

W. Maude-Moore, vice-president of the View Royal Community Association, said the whole matter will be discussed at the association's monthly meeting on Monday.

## Huge Recreational Scheme

One of the suggested sites for new \$9,000,000 sport centre. (Times map.)

## Rampaging Rivers Drive 100,000 from U.S. Homes

### DEAD MAN'S MONEY DEFENDS HIS KILLER

SAN FRANCISCO, April 16 (AP)—A convicted murderer's defense will be financed by the estate of his victim.

The ironic postscript to the death of Allen Friedman was revealed when an inventory of his \$77,644 estate was filed Tuesday.

Friedman's widow, Blanche, formally assigned \$8,000 of her inheritance to pay for the defense of Elbert Raymond Beale, convicted March 21.

The widow testified that Beale had been her lover.

### Women Report Seeing Caddy

"Caddy" came back today to disprove tall tales of his demise.

The big sea serpent is reported by two residents of the Oak Bay Beach Hotel. They declined to give their names.

This is how the report originated: One of the young women telephoned The Times to ask:

"What would it be I've seen off the beach here at Oak Bay, a kind of yellow color, swimming along with a sort of hump in its back? I don't think it was a seal."

Her description tallied generally with that of others who have sighted "Caddy," except for the color.

The creature came within 20 feet of the shore swimming strongly, with an undulating motion.

### Harrison Asks Ottawa to Aid Troops' Hostel

Mayor Claude Harrison wrote Defense Minister Claxton Tuesday with regard to an earlier request for federal aid on a united services centre in Victoria.

The mayor said the minister had been away and he drew his attention again to the request that the government put up a sufficient sum to purchase "a certain site."

There are three possible sites—all buildings which would have to be adapted in varying degrees—other than Prince Robert House.

It has been reported the navy does not consider Robert House suitable. The mayor said that if the services feel Robert House is inadequate their decision would be all right with him.

In the meantime Commodore Kenneth Adams, commanding officer at H.M.C.S. Naden, said navy personnel in this area want and would support a centre.

### Devastation Spread Over 8 States; Truman Due to Fly Over District

OMAHA, Neb., April 16 (CP)—More than 100,000 persons were homeless today as three rampaging rivers continued to spread a wave of destruction across eight states.

President Truman planned to fly over the Omaha-Council Bluffs area, next target of the flooding Missouri River, and to confer today with the governors of seven of the states hit or threatened by the Missouri, Mississippi and Red River of the North.

While the three rivers continued to wreak their toll of misery, more trouble was feared as the Milk River in Montana was set loose once more by a break in the Frenchman Creek dam.

The estimate of homeless was made by the Red Cross which reported that 26,620 families had been forced to leave their homes in the paths of relentless spring floods, which now cover more than 1,000,000 acres.

Eighty-seven cities, towns and villages in Iowa, Nebraska, Kansas, Missouri, Minnesota, Wisconsin and the Dakotas have been affected, and some virtually abandoned, to the waters. Illinois communities were threatened as the Mississippi flood rolled southward.

The major fight shaping up today was for the twin cities of Omaha and Council Bluffs, on either side of the Missouri, where 14,600 soldiers and civilians worked to build up dikes to meet a crest of 31.5 feet—almost five feet over the peak they were originally made for.

### Missouri Will Hit Thursday

The muddy Missouri is due to hit the area Thursday and there was some hope in the words of Lt. Gen. Lewis Pick, chief of the army engineers, who said there is a good chance the river can be held back.

Some 34,000 persons have been moved out of sections of Council Bluffs (population 45,000) which will be flooded if the fight against the Missouri fails. Another 5,000 have been evacuated from Omaha homes.

Gen. Pick, who was formerly engineer for the Missouri Basin, said he not only thinks the river can be contained in the Omaha-Council Bluffs area, but he believes it can be prevented from overrunning homes further south in Iowa, Nebraska, Missouri and Kansas.

The Missouri thus far has affected 33 larger communities. The Mississippi has struck communities in Minnesota, Wisconsin and Iowa. St. Paul has been hit by its worst flood in history and one-third of Winona, Minn., will be covered with water if the dikes can't be held there.

Governor C. Elmer Anderson, of Minnesota, has called the Mississippi rampage a "major disaster."

The Red River of the north has driven 2,500 persons from their homes in the twin cities of Fargo and Moorhead in North Dakota and Minnesota. The fight to save the Fargo Veterans' Hospital, housing 200 patients, is continuing against great odds.

There was no detailed estimate of damage thus far but a Red Cross spokesman in Washington said "You can be sure it will run to at least \$100,000,000."

### Catholics Await Liberals' Stand

VANCOUVER, April 16 (CP)—The British Columbia Catholic Education Association said today in a statement: "The outcome of the Liberal convention will determine whether the Liberals intend to receive the Catholic vote or refuse it."

The association warned, in effect, that it will ask Roman Catholics to vote against the Liberals in the June 12 provincial general election if the provincial Liberal convention April 23 backs Education Minister W. T. Straith on his stand in British Columbia's separate schools dispute.

### Vancouver Stocks Closing Prices

Trading slackened at Vancouver in the late session today but odd strong spots in the mines and western oils showed up. The market finished about even, on the average, with Tuesday closing prices.

Beaver Lodge was strong at \$1.38; Continental shaded back after a strong rise; Sheep Creek at \$1.84 to \$1.85 was in demand; Britalia closed around \$6.30 and Pacific Pete was unchanged around \$13.50.

The Community Chest took another deep breath, but it's still puffin' a little.

The Cougars just hev' 'outshoot Saskatoon 'tnight, then they c'n bury 'em out on 't' lone prairie.

Hope the nine million dollar plan allows space fer m' checker board.

## COMMUNITY CHEST CHIEFS OPTIMISTIC

Believe \$40,000 Needed in Sight

Community Chest officials expressed optimism today that an objective of \$70,000 would be met by the time complete returns are in later this week.

Latest total in the one-day drive Tuesday is slightly over the \$30,000 mark with more districts to be heard from and canvass of several areas still to be made the rest of this week.

The fate of 16-member services of the Chest will hang in the balance until a final figure is arrived at—if the objective is not met, curtailment of these services is a foreseeable possibility.

Canvassers are out again today on a "mop-up" campaign to call on householders who were not home during the major canvass Tuesday.

### AUDIT TONIGHT

Community Chest secretary H. B. Binny said today at Spencerhouse that an audit of all money collected so far will be made at a downtown bank tonight. More definite figures will follow this audit, he said.

Without the fanfare and hoopla of previous campaigns, Tuesday's Community Emergency drive ended last night with a preliminary tally being made at Chest headquarters at Spencerhouse.

While returns were slow in coming in at first, workers at midnight had handled about \$30,000 in donations from 45 districts. The main part of the business area was unreported as were some special categories from which heavy donations were expected.

Victorians gave generously and in varying amounts—all the way from 13 cents donated by two children (their father gave \$25) to a \$500 donation from another resident.

### SELECTIONS

Best Bet—Whiskey Sour.

## Cougars-Quakers Set For Big Third Battle

Victoria has gone hockey crazy in the past few weeks and the malignant fever reached its greatest peak today as tonight is the last opportunity fans will have of viewing Roger Leger and his 1951-52 Cats.

So great is the interest in tonight's game—the third between the Cougars and the Saskatoon Quakers for the P.C.H.L. championship—that reports of ticket scalping are filtering in.

Tickets for tonight's game went on sale Tuesday night and the supply was completely sold out in a record time of one hour and 40 minutes. Some people had been in line as long as 10 hours. Not even standing room remains for the game.

It is reported that scalpers are asking—and getting—\$5 for a \$2 ticket. That's how anxious Victorians are to be in the arena when the clubs square off at 8.30.

The Cougars, trailing in the best-of-seven series two games to one, received heartening news today from club physician Dr. R. J. Wride. The doctor reported that while coach Leger had spent a sleepless evening as a result of penicillin reaction, he would be able to play tonight.

Leger received a deep facial cut in Monday's game and reacted unfavorably to penicillin shots administered Tuesday. "However, Wride reported Leger to be 'okay and rarin' to go'."

### NEED 'BIG BOG'

The Cougars need Leger like apple pie needs cheese, as following tonight's game the series moves to Saskatoon for its conclusion—four games, if necessary.

The series is closer than paint on the wall at the moment—the Cougars winning the opener Saturday, 4-3, in a Horatio Alger finish, and the Quakers weathering a terrific second-period assault by the Cougars to grab the equalizer Monday, 3-1.

There will be only one line-up change according to present information.

### MONTYRE STARTS

Jack McIntyre of the Cougars steps into the series for the first time in role of a forward and replaces rookie defenseman Leon Bouchard, benched because of a recurrent knee injury.

Quakers will go with their winning combination of Monday, Howie Milford sitting it out with a shoulder separation while Bill Heindl takes his place on defense.

Both teams leave by train for Saskatoon Thursday night, arriving at the Hub City Saturday morning where the fourth game takes place that night. Fifth game is scheduled Monday.

For the benefit of visitors in town who might plan to take in the game—don't.

It's been sold out, the counter being cleared of ducats in less than two hours Tuesday.

Game time (a broadcast will be carried by radio station CJVD) is 8.30.

## OVERNIGHT ENTRIES
